GENERAL INFORMATION

THE village of Middlebury has long held a pioneer position in American education. Here was erected in 1802 one of the first "Female Academies" in the country. Here Emma Willard first experimented with the "Plan for Improving Female Education," which has probably had greater effect on women's education than any other brief. Middlebury was established as a men's college in 1800, but women were not admitted until 1883, some years after Miss Willard's "Female Seminary" had been discontinued. In 1902 a state legislative act made possible the forming of a separate women's unit under an administration the same as that of the men's college, but not until 1935 were the students technically graduated from "The Women's College at Middlebury." Construction of a new dormitory was started this year as part of a separate college plant eventually to contain three recitation halls, a library, gymnasium, music and art halls, and a chapel. Until this is completed, however, the faculty will be largely the same in both Colleges, but the curriculum will differ where the nature of the subjects, interests, and aptitudes of the two groups make it advisable. Instruction is offered in twenty-four departments by a faculty of over fifty. The passing of comprehensive examinations in the subject elected for major work is required for securing degrees of Bachelor of Arts and Bachelor of Science. In both college and summer session advanced courses lead to the degrees of Master of Arts, Master of Science, and Doctor of Modern Language.

The College is located on the edge of the village of Middlebury in the west central part of Vermont, the campus overlooking the Champlain Valley with a wide sweep of the Green Mountains to the east and the Adirondacks across Lake Champlain to the west. It is on the main line of the Rutland Railroad with through trains to Boston, New York, and Montreal. The local campus comprises 244 acres in four sections; the Battell Campus reserved for buildings of the Women's College; the "Old Campus" of 30 acres containing the main buildings of the Men's College; Porter field and athletic grounds of 79 acres; and a tract along the Otter Creek. In 1915, a mountain campus of 31,000 acres was willed to the College by Joseph Battell. It is expected that the United States Government will take over the title and management of part of this area by 1936 and develop it further as a

recreational feature open to college students, as a part of the Green Mountain National Forest. The College plant of fourteen halls and dormitories, built for the most part of gray limestone and white marble, colonial in architecture, is planned to establish a general harmony consistent with the extensive campus and mountain setting.

Substantial progress has been made in the past decade, especially in equipment, permanent funds, and enrollment. In this period have been constructed the Château Français, the Music Studios, Porter Hospital, and two additional wings on the Egbert Starr Library. Enrollment has more than doubled and, with the summer schools, the geographical distribution of students extends to forty states as well as foreign countries. The endowments have been quadrupled and the annual income trebled.

Middlebury is non-sectarian, never having had official connection with any church. It is, however, the desire of the College to foster the tradition of Christian faith and sincere moral purpose established by the founders. Students are required to attend the daily chapel services led by the President and the Sunday vesper services conducted by men of eminence in various denominations and the President. A vested choir composed of twenty-four students, chosen by competition, is present at all services.

The students of the Women's College at Middlebury have been self-governing since January 5, 1912. The object of the Student Union is to control the conduct of the women in all matters of their college life which are not under direct jurisdiction of the Faculty; to further the spirit of unity among them; to coordinate and control the extra-curricular activities of the women students; to encourage high standards of responsibility and cooperation in student self-government; and to maintain the social standards of the College.

All women registered as students in the Women's College at Middlebury become members of this Union upon reading and signing the Constitution and By-Laws. The act of signing these is an agreement to accept the principles, rules, and regulations of the Student Union, thus pledging responsible membership in the community and subordination of personal interests to the general good.

The desirability of carefully mapping out one's life work is impressed upon all students, and college instructors give freely of their time and advice in aiding students to a wise arrangement of their studies. The first object of a college course should be that development of mind and personality which will enable one to lead a life of greater usefulness; but success is more likely to attend the student who, in seeking that development, strives to fit herself for some particular field of service. The field of opportunities for women has broadened considerably during the last few years, and many college students who would once have gone out to teach are now looking toward such professions as extension work in Home Economics, dietetics, or tea room and cafeteria management; some form of journalism; secretarial or statistical work; scientific work; medicine or nursing; social or religious work, and many others.

Opportunities for hearing musicians, lecturers, and entertainers of wide reputation are provided by such organizations as the College Entertainment Committee, the Community Concert Association, the Liberal Club, and the Abernethy Library. Christopher Morley, Ted Shawn Dancers, Carola Goya, Johnson Choir, John Erskine, Alexander Woollcott, Sherwood Eddy, Barrere Little Symphony are representative of those who have recently appeared. In addition there are weekly "Twilight" musicals, Dramatic Club productions, the annual concerts of the Glee Clubs and Orchestra, and the special seasonal music of the Choir.

The College places in the hands of each student a pamphlet of regulations containing detailed information as to enrollment, attendance, scholarship, examinations, athletics, and student activities. Since the necessarily limited enrollment places upon the College the obligation to select candidates with the utmost care possible, a responsibility is felt for those who are accepted and the gratifying record that Middlebury graduates have made is due, we believe, to this. To safeguard this record of the past, *the College reserves the right to exclude at any time students whose conduct or academic standing it regards as undesirable, and without assigning any further reason therefor; in such cases the fees due or which may have been paid in advance to the College will not be refunded or remitted, in whole or in part, and neither the*

College nor any of its officers shall be under any liability whatsoever for such exclusion.

The College aims to investigate and care for the health of each student as far as possible. The Department of Physical Education for women commands the services of a professor and assistants. Prescribed work in physical education and hygiene is required of all Freshmen and Sophomores. Students are encouraged to organize and carry on a great variety of outdoor sports under the general charge of the Director. All cases of illness are reported immediately to the college nurse who cooperates with the local physicians. Porter Hospital is fully equipped for the accommodation of any cases of illness which may arise. The health fee entitles each student to seven days' hospitalization at the minimum rate. Private rooms, special nursing, and physicians' fees are taken care of by the student. The importance to the student of laying a sound physical foundation during the years of her college course cannot be over-estimated. The College reserves the right to ask the withdrawal of any student whose physical condition is not satisfactory.

One of the advantages the small college offers is the possibility for acquaintance of undergraduates with all members of the faculty as well as fellow students. The instructors and administrative officers welcome at any time calls of students, either at their offices or in their homes. The President may be seen from 10.30 to 12 A.M. every day except Sunday, and consultation by students on any subject is cordially invited.

Middlebury has a special plan of orientation for the opening week with the idea of aiding members of the entering class to become adjusted to their new environment as quickly as possible. The program includes a mass meeting of the class on the opening evening, registration, orientation lectures, psychological test, physical examination, and training in use of the library. Each student is assigned to a faculty advisor who assists her in making out her program of studies.

The first three days of the college year, Monday, Tuesday, and Wednesday, are given over to registration and condition examinations. All students are required to enroll and register their election of courses in the gymnasium on one of these

days. For the second semester registration must be completed at the Registrar's office on or before the Friday preceding it. A charge of \$5 will be made for each enrollment after the days assigned for registration.

Bills are payable by semesters. All students entering for the first time shall be required to make an initial deposit of \$100.00 on their semester bill. Members of the Sophomore, Junior, and Senior classes shall be required to pay all arrears and to make a deposit of at least \$50.00 on their new accounts before they will be permitted to enter classes. Bills for the first semester must be settled in full by November first or satisfactory arrangements made at the Treasurer's office. For the second semester all students are required to make a minimum deposit of \$50.00 before enrolling, and accounts must be settled in full or satisfactory arrangements made by March first. A certificate of deposit from the Treasurer's office and a class card are required before the student is allowed to attend classes.

The following table includes the principal items:

Tuition	\$300.00
Room and board	375.00
French School, tuition, room and board	695.00
Gymnasium and athletic fee.....	10.00
¹ Health fee	10.00
Publications:	
<i>The Campus</i>	3.00
<i>The Saxonian</i>	1.00
<i>The Kaleidoscope</i>	4.00
Student Union Fee	1.00

With the help of the list of fixed charges given above, the individual student should be able to work out an approximate estimate of her expenses for the year. In addition the student should consider travel, textbooks, clothing, sorority dues, and social assessments. Items varying according to class, courses, and society:

¹ In addition to minor dispensary service, this covers seven days service at Porter Hospital when necessary at the minimum rate of \$3.00 per day.

Special laboratory fees (see course descriptions).....	\$2.00 to \$12.00
Extra course per semester.....	30.00
Graduation fee (seniors only).....	11.00
Table board at the Château.....	260.00
Books and supplies.....	20.00 to 50.00

Students boarding at the women's dining halls if absent two weeks or longer will be allowed a rebate of \$5 a week for each full week's absence.

The College reserves the right to change quoted charges if necessary to meet the actual cost.

Employment by which the student may earn part of her expenses can frequently be obtained about the College or in the village. While the College can promise nothing to untried candidates, it will help in every way possible all who prove themselves capable and willing. Occupations in which students find employment are: waiting on table, washing dishes, and house-duty in the dormitories; waiting on table and light house work in the homes of the village; caring for children in the afternoon or evening; typewriting or clerical work in the College offices; tutoring; acting as monitors; singing in the choir, etc. Applications for work should be made at the office of the Dean of Women.

The undergraduate organizations at Middlebury include: Athletic Association, Choir, Debating Club, Der Deutsche Verein, Dramatic Club, El Club Espanol, English Club, Glee Club, Hiking Club, Le Cercle Français, Mortar Board, Mountain Club, Orchestra, Pan-Hellenic Council, Phi Beta Kappa, Spanish Club, Student Union, Tau Kappa Alpha, A Tempo Club, and Wig and Pen.

There are six national sororities:

Alpha Xi Delta, Delta Delta Delta, Kappa Kappa Gamma, Phi Mu, Pi Beta Phi, and Sigma Kappa.

Periodicals edited and managed by students include: *Middlebury Campus*, the weekly newspaper; *Saxonian*, quarterly literary magazine; *Kaleidoscope*, College year book, published in May; *Handbook*, annual information booklet for Freshmen.

Painter Hall, completed in 1815, is the oldest college building in Vermont, and a fine example of New England colonial architecture. It was first known as West College, but since 1846 has borne the name of Gamaliel Painter, one

of the founders and early benefactors of the College. Administrative offices are now located on the entire first floor of the building.

The Old Chapel, erected in 1836, is the central structure in the old stone row, and is built of the same material as Starr and Painter Halls. It is used as a recitation and administration building, with the College Bookstore on the ground floor. The original Chapel on the third floor is used as a lecture room.

Ten residence halls and cottages have been provided for the use of faculty and students. Five of these are on the campus: **PEARSONS HALL**, a marble building of colonial design, located on a commanding height from which views of the Adirondacks and Green Mountains are obtained; **BATTELL COTTAGE**, named in honor of the donor of the campus of the Women's College; **HILLCREST**; **HILLSIDE COTTAGE**; and the **CHÂTEAU**. The **WEYBRIDGE HOUSE**, the **JEWETT-WILCOX HOUSE**, the **EDDY HOUSE**, and the **ROBINSON HOUSE** are located a short distance from the campus. The **HOME MANAGEMENT HOUSE**, on Weybridge Street, known as **THE HOMESTEAD**, is a typical New England home, the interior of which has been remodelled so that it admirably meets the needs of Home Economics 35.2. It is anticipated that a new dormitory to accommodate 125 women will be completed by September, 1936.

The **Château** or **Maison Française**, located at the north end of the women's campus, is a two and a half-story structure, the architecture for which was inspired by the **Pavillon Henri IV** of the palace of Fontainebleau. It is thoroughly French in the interior as well as the exterior, with French windows, furniture, and decorations. It has accommodations for fifty women. The recitation rooms of the French Department, the office of the Dean of the French School, and the Library are all housed in this building.

On May 15, 1914, Ex-Gov. John A. Mead, of the class of 1864, signified his desire to erect a chapel for the College. **Mead Chapel** His letter of gift said: "I have in mind a dignified and substantial structure in harmony with the other buildings of the College, and expressive of the simplicity and strength of character for which the inhabitants of this valley and the State of Vermont have always been distinguished." In accordance with this gift the Mead Memorial Chapel was erected in 1915-16. It is a colonial white

marble structure of the New England meeting-house type with a rich and impressive interior. The chancel has accommodations for the faculty and a student choir and contains a large pipe organ. In the tower is a chime of eleven bells, the gift of Ex-Governor and Mrs. Mead.

The Library, built of six kinds of Vermont marble with funds bequeathed by Egbert Starr, was dedicated in 1900. The **Starr Library** capacity of the original building was more than doubled by the construction in 1928 of two wings given by Dr. M. Allen Starr, son of the first donor. The main library, including reference collections in the Departments of Chemistry, Physics, Biology, Drawing, Geology, Greek, and French, numbers about 65,000 volumes. The private library of Dr. Julian W. Abernethy, consisting of about 7,000 volumes in American literature, was bequeathed to the College in 1923 and is now housed in the east wing. Frank D. Abernethy, brother of the donor, furnished the rooms devoted to this collection, where free lectures and readings are held throughout the winter season. In this wing also are fine arts, coin and seminar rooms, and a Middleburiana and local history department. In the west wing are periodical and typewriter rooms and also a reserve room devoted to books withdrawn from general circulation for collateral reading in the various courses. The library is open day and evening except Saturday night and Sunday morning and students have free access to the stacks at all times.

The Departments of Physics, Biology, Geology, and Drawing and Surveying are quartered in Warner Science Hall, **Warner Science Hall** which was built in 1901 through benefactions of Ezra J. Warner of the class of 1861. The building is a memorial to his father, Hon. Joseph Warner, formerly a resident of Middlebury and a Trustee of the College. By the will of Mr. Warner the College has received a bequest of \$25,000 for the care and maintenance of the Hall, and for the purchase of supplies for the departments which it accommodates.

On the upper floors is the Natural History Museum given by professors of the College. One of the earliest geological surveys of Vermont was conducted by Prof. Charles B. Adams, who then occupied the chair of Natural History. He laid the foundation for the large collection of fossils representing the different geological

formations. The work of Prof. Henry M. Seely, long connected with the College, is in evidence in the large collections of fossils of the Champlain Valley. In botany, the complete series of the flowering plants and ferns of the Champlain region, which was collected by President Brainerd, is especially notable. Valuable additions have been made in the higher fungi and other cryptogamous plants gathered by Dr. Edward A. Burt. The Zoological Museum has received accessions from the Smithsonian Institute and from Hon. A. Barton Hepburn of the class of 1871.

Since 1913 the Department of Chemistry has been established in the marble building erected with a portion of the General Education Board fund of \$200,000. In the basement are organic and research laboratories, photographic and general store rooms. The first floor has lecture rooms; the second provides three laboratories for qualitative and quantitative analysis and private work, library, conference, and balance rooms. On the upper floor are located general chemical and private laboratories and a lecture room.

The Gymnasium, erected in 1910, is named for the Hon. John G. McCullough of Bennington. The structure is marble and the style colonial, like the other buildings of the College. The women's athletic field is located east of Pearsons Hall and is used for hockey matches and for archery, baseball, and field events. There are tennis courts for women and a volleyball court south of and adjoining the field. Coaching in the individual team sports is given in the regular classes in the Department of Physical Education and also after academic hours in class groups organized under the Women's Athletic Association. Students are permitted to use the Middlebury Country Club golf course without charge during the college year.

This brick building of colonial design is the gift of Mrs. Emily Proctor Telfer, and houses the studios of the members of the Music Department. Rooms are given over to instrumental and vocal practice as well as a larger studio used for Glee Club and Band rehearsals.

The Playhouse, located on Weybridge Street, is the studio for the Dramatic Club and Play Production classes. Complete equipment for college plays is provided. Most courses in the Department of Drama are given here.

The Porter Hospital, completed in 1925, was given by Mr. William Porter H. Porter, in memory of his father and mother, for the use of the College and of the people of Addison County. It is of fireproof construction and equipped in the most modern fashion. A superintendent, an interne, and a corps of graduate nurses are always on duty. A nurses' home, annex, and other improvements have since been added by Mrs. Porter.

In assigning rooms, preference is given to students in College in order of classes. An assignment is made about May first. Incoming students cannot be assigned to particular rooms before August 15. No room can be assigned for a shorter period than one year. All rooms are subject to the regulations of the College as to student residences, and occupants are liable for any damage to their room or its furniture. The students' rooms in each hall or cottage are single or double and are supplied with necessary furnishings. Application for a room in a College house together with \$10 advance payment for room rent should be made to the Dean of Women. No reservations are made without this deposit. This sum will be refunded if the room is not desired, provided notice of withdrawal is given before August first.

Middlebury has acquired distinction as a pioneer in establishing the segregated one-language summer schools, first of which was the German School founded in 1915. This had a flourishing existence for three years, but was discontinued in 1918 when the teaching of German in high schools was given up, due to the World War. Its immediate success was attested by the opening of the French Summer School in 1916, of the Spanish School the following year, and the spread of segregated language instruction to other institutions. In response to a wide demand the German School was revived in 1931 at Bristol. An Italian School was opened in 1932. Since the Deans of these schools are permanently connected with the College it is possible for undergraduates during the winter session to benefit by the advantages introduced into language teaching. Bread Loaf Inn, twelve miles east of the College, is the home of the Bread Loaf School of English, where a six weeks session is held each summer for graduate students, followed by the Writers' Conference of two weeks.

The government of the College is by a board of Trustees whose corporate title is "The President and Fellows of Middlebury College." The corporation is self-perpetuating and the charter of the College contains no restrictions as to elections. The College owns buildings, equipment and grounds valued at \$1,720,000. The permanent endowment amounts to \$4,000,000. An appropriation of \$7,200 is received from the State of Vermont, for scholarships. The expenditures for the year 1933-34 were approximately \$317,754.00. The College has never impaired its endowments and is not in debt. An Advisory Committee elected by the alumnæ of the College cooperates with the trustees in making suggestions concerning the operation of the Women's College.

ADMISSION

METHODS OF ADMISSION

STUDENTS are admitted to the Women's College at Middlebury either by certificate or by examination. After applications have been received the necessary blanks for admission will be sent. Certificate forms are always sent to the principal of the school; other blanks are sent to the applicant.

CERTIFICATION

REQUIREMENTS FOR CERTIFICATION

For admission by certificate 15 points or admission units are necessary. A point or unit represents a year's study in any subject in a secondary school, the class meeting four or five times per week; it constitutes approximately a fourth of a full year's work. In English, however, but three units of entrance credit are given for the work of four years. The requirements in all subjects in which the College Entrance Examination Board offers examinations, are based on the outlines of this Board in those subjects, whether the applicant wishes to enter by certificate or by examination.

I. Required points:

- a. Of all students, English, 3 points; Algebra, 2 points; Geometry, 1 point.
- b. Of A.B. students, *Latin, 4 points; or Greek, 3 points.
- c. Of B.S. students, foreign language, 2 points.

II. Optional points:

Two points from the following groups of options are to be chosen by A.B. students and four by B.S. students.

Language

Latin
Greek
French
German
Italian
Spanish

History and Social Science

Ancient History
European History
English History
American History

Science

Mathematics
Chemistry
Physics
Biology
Physical
Geography
Botany
Zoology
Drawing

* A student with a preparatory school record of high quality but presenting only 3 units of Latin, may be admitted to the A. B. course, if it is the judgment of the admission committee that he can successfully carry the college work in that course.

III. Free choices:

Subject to the approval of the Admission Committee, the remaining points may be chosen from any subjects taken in the preparatory school and not already used in making up the required and optional points.

ELIGIBILITY FOR CERTIFICATION

Students in New England from schools upon the approved list of the New England College Entrance Certificate Board may be admitted on certificate of their high school principals. *No total certification for less than eight points will be considered*, but the eight points need not all be from the same school.

Students who have only partial certification totaling eight points or more may make up deficiencies by examinations covering the points in which they are not certified; or they may enter wholly by examination.

Schools not upon the approved list of the Certificate Board, but meeting its requirements in respect to curriculum, teaching staff and equipment, may, for the purpose of showing their standard of certification, send one or more students on certificate, if arrangements for so doing are concluded with the Board before April 1. Inquiries on this subject may be addressed to Prof. Frank W. Nicolson, Secretary of the Board, Wesleyan University, Middletown, Conn.

Subject to the approval of the Committee on Admissions, students outside of New England from schools upon the approved list in their respective states may be admitted on the same basis as those from approved schools in New England.

Students who have passed the examinations of the College Entrance Examination Board, or of the Board of Regents of the State of New York, with satisfactory grades, will be credited upon certificate for all such courses.

Certification will not be accepted in the mathematics courses which are required for admission to the B.S. course if more than one school year has intervened between the completion of the study of mathematics in preparatory school and the time for matriculation.

SPECIAL CERTIFICATION

Students who have graduated from any approved high school in the first third of the class and whom their principals will certify upon the general record of their courses rather than in individual subjects may be admitted provided they have satisfied the required points as

stated above for entrance upon the work of either degree. A detailed statement of the high school course will be accepted in each case by the Admission Committee as satisfying the remaining points up to fifteen, provided it shows that the student has included in her course the following list of subjects or their equivalents: 4 years of English; 3 years of Mathematics (2 years of Algebra and 1 year of Plane Geometry); 2 years of a foreign language; 1 year of History; 1 year of Natural Science.

Approved high schools are: in New England, schools upon the approved list of the New England College Entrance Certificate Board; outside of New England, subject to the approval of the committee on admissions, schools upon the approved list issued by the Department of Education in their state.

It is understood that in granting special certification to any student, the principal who certifies her is assuming the same obligation for her work that he is for the work of a student to whom he gives regular certification.

LIMITATION OF ENROLLMENT

The membership of the Freshman class is limited. Early application is therefore desirable. Tentative choice of applicants will be made by a series of selections, the first on the twentieth of March preceding entrance, and subsequent ones on the twentieth of each succeeding month until the quota is filled.

EXAMINATIONS

JUNE EXAMINATIONS

Students desiring to make up deficiencies in certification by examination, or to enter by examination alone may make use of the examinations given by the College Entrance Examination Board, June 15-20, 1936. The College itself gives no entrance examinations.

Students who desire to enter entirely by examination may make application for admission on the basis of "New Plan" ("Plan B") examinations (examinations in four fundamental subjects). Information on subjects to be chosen for "New Plan" examinations may be secured by application to the Director of Admissions.

Examinations will be held in nearly 400 towns and cities in the United States and abroad.

Blank forms for the "Application for Examination" and the "Teacher's Recommendation" may be obtained from the Secretary of the College Entrance Examination Board upon request by mail. The application should be returned to the College Entrance Examination Board, 431 West 117th Street, New York City. The Teacher's Recommendation should be sent directly to the Committee on Admission of the College.

Every application for examination must be accompanied by the examination fee, which is \$10.00 for all candidates. This fee should be remitted by postal order, express order, or draft on New York, payable to the College Entrance Examination Board.

The designation of the center to which the candidate will go for examination is regarded as an indispensable part of the application for examination. A list of places at which examinations will be held in June, 1936, will be published about March 1. Requests that the examinations be held at particular points should be transmitted to the Secretary of the College Entrance Examination Board not later than February 1, 1936.

Candidates should report for a morning examination at 8.45 and for an afternoon examination at 1.45, Standard or Daylight Saving Time, according to the usage of the local public schools. Under no circumstances will a candidate be admitted late to the Scholastic Aptitude Test.

Detailed definitions of the requirements in all examination subjects are given in a circular of information published annually about December 1 by the College Entrance Examination Board. Upon request a single copy of this document will be sent to any teacher without charge. In general a charge of twenty-five cents, which may be remitted in postage, will be made.

ADVANCED STANDING

A candidate for admission to advanced standing who comes from an approved institution of collegiate rank may receive credit, without examination, for work done at such institution, if a detailed statement of previous work is presented. This statement should include a full list of preparatory subjects accepted for admission by the institution previously attended, and also a list of the subjects taken there for which credit has been attained. A letter of honorable dismissal from the institution last attended also must be presented, and no

student who has been separated from another institution for reasons of scholarship will be granted any academic favor that would not be extended by the institution from which the separation was made. Transfer students are not admitted to Senior standing.

Only a limited number of students can be accepted in any year by transfer from other institutions, and all students transferring from other institutions will be provisionally classified for their first year. At the close of this period their credits will be adjusted and it will be understood that in making the adjustment the quality of the work done at Middlebury will be taken into consideration.

A student satisfying an instructor of fitness to do so may take a qualifying examination in any subject of the Freshman year, which, if passed, will be accepted as prerequisite to the succeeding course, but will not entitle the student to college credit for the examination so passed. An examination in Mathematics or Latin so passed will apply toward meeting the mathematical or classical requirement for a degree.

THE COLLEGE CURRICULUM

THE WOMEN'S COLLEGE AT MIDDLEBURY confers the degrees of Bachelor of Arts and Bachelor of Science. Since the curriculum requirements for these degrees involve less than one-half of the total number of courses necessary for graduation, considerable latitude is made possible in the wide range of electives. To obtain the variety of interests and breadth of view which graduation from a college of liberal arts implies, undergraduates are urged to distribute their free choices wisely. Students should plan their four years' work, bearing in mind that a comprehensive examination must be taken at the end of the senior year covering all the subjects in which major work was done. Advisors are appointed to give students individual assistance in making the wisest selection of courses. The schedule of courses must be endorsed by the advisers before the Registrar will send class cards to the instructors.

ORGANIZATION OF COURSES

THE twenty-four departments are arranged in three divisions as follows:

<i>Language Division</i>	<i>Social Science Division</i>	<i>Natural Science Division</i>
American Literature	Economics	Biology
Drama and	Education and	Chemistry
Public Speaking	Psychology	Drawing and Surveying
English	Fine Arts	Geology and Geography
French	History	Home Economics

Greek	Philosophy	Physics
Italian	Physical Education	
Latin	Political Science	
Spanish	Sociology	

The normal number of courses of study required of each student in a given year is five. In order for Sophomores, Juniors, and Seniors to take six courses they must have attained an average of 80 percent in all work of the previous year; to take seven courses, 90 percent. A charge of \$30 a semester is made for each extra course.

Undergraduate work is reckoned in semester hours and courses. A semester hour means one period of class work per week for one semester. All courses, unless otherwise stated, are conducted three hours a week, so that the normal amount of classroom work required

is fifteen recitation hours a week, exclusive of preparation. Laboratory courses require double periods, each double period usually counting the same as one hour of recitation.

While the amount of time required for thorough preparation differs in different studies and for different students, every student should allow at least two hours for the preparation of each hour of recitation; the best results of collegiate training cannot be expected from less.

In the first year three of the five subjects are prescribed by faculty regulation. The History of English Literature and Man and His World are required of all Freshmen, and in addition first year Latin or Greek is required of candidates for the A.B. degree and Elementary Mathematical Analysis of candidates for the B.S. degree. The remaining two courses are free electives and may be chosen from any subject open to Freshmen. At present these include the introductory courses in Biology, Chemistry, History, Music, Political Science, Home Economics, and any of the modern languages. Those who have taken a modern language in high school may continue the subject in such intermediate or advanced courses as their preparation fits them for. Freshmen may take practical work in music but without college credit.

After the first year all the work is elective with the exception of the one additional year of Classics or Mathematics necessary to complete the degree requirement. B.S. students have the option of substituting a year of Physics or a second year of Biology, Chemistry, or Geology for the second year of Mathematics.

While the work of the last three years is elective the student is required to make elections in accordance with a consistent and definite plan and in consultation with an advisor from the department in which the major study is elected. The following regulations are prescribed for the choice of studies after the first year, and each student before graduation shall meet these requirements as to a major, minor, and the distribution of work.

1. Not later than the beginning of the sophomore year a major study shall be elected and not less than twenty-four units in that department completed. The department may designate the special courses in the department necessary for a major.

2. At the same time a minor study shall be elected, with the advice and approval of the major department, and not less than twelve units in that subject completed.

3. Completion of not less than 18 units will be required in such cognate courses in various departments as the major department may specify in order to integrate the major and minor subjects into a unified field of study.

4. The student shall complete a minimum of 12 units in each group and shall not take more than 84 in any one.

Freshmen may not elect more than one course in any subject. After the first year not more than three courses may be elected in any department simultaneously and the total amount of work in any department may not exceed 42 hours.

A Sophomore who for any reason is not satisfied with the first choice of a major may at the end of the year change to another subject, but assurance should first be obtained from the department to which the change is proposed that the student will be able to meet its requirements in the remaining two years. After the close of the Sophomore year changes in a major subject will be allowed only for exceptional reasons and with the consent of the major advisor.

No change in studies will be allowed during the first week of classroom work except by permission of the Chief Adviser. During the second week of classroom work a change may be made only with the permission of the Chief Adviser and the Instructor involved, and the payment of a fee of \$5. For making a change during the third week of classroom work a fee of \$10 will be required. The fee in each case must be paid to the Registrar before the new Admittance Card is given to the Instructor. After the third week of classroom work no change may be made except within a department and upon the initiative of the Instructor.

The satisfactory completion of 40 semester courses of 3 hours or more each per week, or their equivalent in year courses, is required for either degree. The final year of work must be taken at Middlebury College.

SCHOLARSHIP

Scholarship is graded on the scale of 100 percent, 60 percent being passing.

Reports of standing are made at the end of each semester. At these times notices of failures are sent to both students and parents.

At least 32 of the 40 semester courses required for graduation must be of not less than 70 percent grade.

A student credited with the equivalent of eight semester courses at the beginning of the college year will be ranked as a Sophomore for that year; with 18, a Junior; with 28, a Senior.

Not more than six semester hours can be attained by an undergraduate at a Summer Session. Proportionate credit will be allowed for work in summer sessions or summer quarters at other institutions where the period of summer work is longer than six weeks.

CONDITIONS IN COLLEGE WORK

A STUDENT who fails to pass an examination at the close of the first semester and is thereby conditioned, but who is permitted to remain in college, is given an opportunity to take another examination either on the first day after the Easter recess or on such one of the first three days of the next college year as shall be determined by the Registrar. A student who is conditioned at the close of the second semester, and who is permitted to remain in college, may take an examination on such one of the first three days of the next college year as shall be determined by the Registrar, or on the first day after the Christmas recess.

Application for the opportunity to remove a condition or deficiency must be made to the Registrar and a fee of \$5 paid. If an examination is to be taken, the application to the Registrar must be made at least one week in advance of the time set for the examination.

A make-up examination must be taken at the time for which the student registers, unless excused by the Dean in advance.

No exception will be made save in the following cases:

1. A Senior may take an examination for each deficiency, or condition, incurred during the Senior year, on the Friday preceding Commencement.

2. If the course in which a student has been conditioned is given in the Summer Session, the condition may be removed by taking that course and passing at its close an examination which will be based upon the regular college course and, if possible, be set by the instructor who imposed the condition.

To remove a condition the average of the term mark and the new examination mark combined in the ratio of three to one must reach 60 percent.

Any student failing to make up a condition as provided for above must repeat the course with the following class if the subject is a required one, even though, from conflict of hours or any other cause, it necessitates the temporary omission of some of the regular work of her class.

EXAMINATIONS

MOST courses are offered in year rather than semester units and final examinations on the whole year's work are given in June unless otherwise noted in the course description. When they are listed as half-year courses final examinations are given at the end of each semester.

A student inexcusably absent from an examination will be conditioned. A student unavoidably absent from College at the time set by the Registrar for taking the examination will be given an opportunity without fee immediately upon the return to College or before the beginning of the corresponding semester of the following year. If one fails to meet this requirement, the course must be repeated with the following class if the subject is a required one.

A student whose grade in any course falls below 50 percent is excluded from examination and must, if the subject is a required one, repeat it with the following class.

A student will be conditioned whose recitation and examination mark combined in the ratio of three to one is below 60 percent. No student whose examination mark is below 50 percent will be allowed to pass.

COMPREHENSIVE EXAMINATIONS

At the end of the Senior year every student must pass a general examination testing comprehensive knowledge of the subject in which major work was chosen and covering all of the requirements in that department. A passing grade of 60 percent in this is required for graduation. This examination is divided into not less than two parts of at least two hours each, and given a week or more before the beginning of final examinations. Each department may require related courses in other departments, as part of the material of the general examination.

Students majoring in a modern language should have the ability to understand, speak, and write the language easily and should have

acquired a knowledge of the history and civilization, the chief authors and main currents in the literature of the country.

A student who fails to pass the comprehensive may not take a second examination until the following May.

Students who pass the comprehensive with a grade of 75 percent may, at the discretion of the department, be excused from final course examinations in any or all courses that may fall within the field of concentration, including allied courses accepted for this purpose. It is understood, however, that no student is excused from any other requirement in courses.

The week previous to the time taken up by the Comprehensive Examinations is considered a Reading Period for Seniors and classes composed of over 80 percent Seniors may be discontinued at the discretion of the Instructor. In all other courses Seniors are held responsible for material content which can be covered by reading or laboratory work, but are not required to attend classes nor held responsible for the class discussion. Departments assist students in organizing and coordinating their material for the comprehensive examinations by individual conferences, group seminars, series of lectures, reading lists and syllabi, sample examinations, or senior coordinating courses.

The purpose of the comprehensive examination requirement is to put the emphasis on the assimilation of knowledge and on the acquisition of a broad and deep comprehension of the student's major subject, both in the various phases of the subject itself and also in its relation to other branches of knowledge. The required and recommended courses indicated for each department are a guide to the material to be covered by the examination. Instead of the mere accumulation of points from a certain number of isolated courses passed, the Middlebury Bachelor's Degree represents a unified body of intellectual experience, gathered and assimilated over a period of four years, and correlated for practical application to intellectual problems.

DEPARTMENTAL HONORS

As an incentive to such students as have the ability to do more than should be required of the majority, and to promote and encourage individual investigation in the various departments of the curriculum, the faculty has established a system of honors. These are

divided into two classes, Honors and High Honors, and are subject to the following regulations:

1. Honors must be sought in the department in which the candidate is concentrating, and at the end of her course her application for Honors must have the unanimous recommendation of the department.

2. The candidate shall announce the intention of working for Honors to the head of the department concerned at a time not later than the registration period at the beginning of the Senior year. It is urgently recommended, however, that the candidate consult with the departmental head at as early a time as possible in order that the requirements for Honors in the department concerned may be thoroughly understood and completely met.

3. Each candidate for Honors shall be required to pass by unanimous vote of the entire department concerned a special comprehensive examination to be devised and administered by the department in which Honors are sought and as specified in Section 6 that follows. Each department shall issue at least one year before the date set for the special examination a statement of the material on which the examination shall be based and shall have the right to include such special requirements as seem suitable, such as complementary courses in allied departments, etc.

4. In order to secure Honors a student must have obtained an average rank of not less than 80 percent in the department in which Honors are sought; a general average of not less than 80 percent in the entire college course, and a grade of 85 percent in the special comprehensive examination. In order to secure High Honors the student must obtain an average rank of not less than 90 percent in the department in which High Honors are sought; a general average of not less than 85 percent in the entire college course, and a grade of 90 percent in the special comprehensive examination.

5. Candidates for Honors are expected to consult frequently with departmental heads concerning their progress in fulfilling requirements and in general concerning their preparation for the special comprehensive examinations.

6. Candidates for Honors shall be required to take the regular Departmental comprehensive examination with the addition of sufficient examination material to test the candidate's special preparation in his Honors work. It should be understood that this additional material with the regular departmental comprehensive examination shall constitute in effect a special examination. Should the candidate be unsuccessful in passing this examination the grade should be recorded and the candidate should then be given a grade for a regular comprehensive examination. Such candidates will, therefore, be subject to the usual requirements governing the regular comprehensive examinations required of all students.

These honors will be printed on the Commencement program and in the next annual Catalogue, and will be certified to, when requested,

by a written certificate from the Registrar and the professor of the department, stating the nature and quality of the extra work done.

The degrees of A.B. and B.S. are conferred *cum laude* upon those who have attained an average rank, for the entire course, of 85 to 90 percent; *magna cum laude* if that rank is 90 to 95 percent; *summa cum laude* if it is 95 percent or above.

HONORARY APPOINTMENTS

THE faculty, under the direction of the Corporation, give the honorary Commencement appointments in College: to the woman attaining highest rank, the appointment of Valedictorian, and to the second in rank, the appointment of Salutatorian.

PHI BETA KAPPA

THE Middlebury Chapter of the Phi Beta Kappa Society is the Beta of Vermont. Members of each Senior class, who have attained an average rank of 89 percent for six semesters, or an average rank of 87½ percent for eight semesters are eligible for membership, up to a maximum of 15 percent of the class.

DEPARTMENTS AND COURSES OF INSTRUCTION

Most of the courses meet three times a week. The year in which a course would be elected most effectively by the average student is clearly indicated by the number used to define the course: numbers from 11 to 19 inclusive indicate Freshman courses; numbers from 21 to 29, Sophomore courses; from 31 to 39, Junior courses; and from 41 to 49, Senior Courses. Figure 1 following the decimal point in the number of a course (*e.g.*, 21.1) shows that it is a first semester course; figure 2 (*e.g.*, 21.2) that it is a second semester course; the number without figure following decimal point (*e.g.*, 21.) indicates that it is a year course. Unless otherwise stated semester courses carry 3 credits and year courses 6 credits toward the required 120.

Prerequisite courses are shown in parentheses. *Bracketed courses are not given in the current year.* Not more than three courses in one department may be taken at the same time except by permission of the Administration Committee. In any modern language, students of any class will be assigned to those courses for which, in the judgment of the instructor, they are best fitted.

AMERICAN LITERATURE

Professor Cook

Courses required for Comprehensive Examination: 21.; 31.; 41.1 or its alternate; 41.2 or its alternate.

21. AMERICAN LITERATURE SURVEY.

A study of the main currents of literary thought in America to 1900, with particular emphasis on selected works of some major writers. (English 11.)

31. THE AMERICAN NOVEL.

A study of the main tendencies in the development of the novel in America. (American Literature 21.) (Permission.)

41.1 CONTEMPORARY AMERICAN POETRY.

A study in contemporary American poetry as revealed in the work of outstanding poets. (American Literature 21.) (Permission.)

[41.2 THE AMERICAN SHORT STORY.]

A study of the development of the short story in America. (American Literature 21.) (Permission.)

42.2 EMERSON AND THOREAU.

An intensive study of the work of major American authors who have made important contributions to American thought. (American Literature 21.) (Permission.)

51. SPECIAL RESEARCH COURSES.

Open to qualified students. Recommended for Seniors preparing to obtain honors in American Literature. (American Literature 21.) (Permission.)

BIOLOGY

Professor LONGWELL

Professor BARNEY

Mr. STULL

Courses required for Comprehensive Examinations: 11.; 21.; 22.; 31. Courses recommended: Chemistry 11.; Organic Chemistry; Introductory Logic.

11. GENERAL BIOLOGY.

An introduction to the fundamental biological laws and to the study of the interrelation of organisms; structure and function of physiological systems; laboratory study of selected animals and plants.

Laboratory fee, \$20 for the year.

Professor LONGWELL.

21. COMPARATIVE ANATOMY OF VERTEBRATES*

A comprehensive study of vertebrate structure with special reference to man, adaptation and evolution. Dissection of selected animal types. (Biol. 11.)

Laboratory fee, \$20 for the year.

Professor LONGWELL.

22. STRUCTURE AND PHYSIOLOGY OF PLANTS.

The morphology and physiology of seed plants; a general survey of the plant kingdom from the viewpoint of comparative morphology and physiology. (Biol. 11.)

Laboratory fee, \$20 for the year.

Professor BARNEY.

41. GENERAL BACTERIOLOGY.*

Lectures and laboratory practice; structure and physiology of bacteria; the technique of their study; preparation of stains, reagents, culture media; determination of species; the bacteriology of water, sewage, milk, shellfish; animal immunity, cyclogeny, bacteriophagy. (Biol. 11.)

Laboratory fee, \$20 for the year.

Professor BARNEY.

31. GENERAL PHYSIOLOGY.*

The functions of organs of the human body; physical and chemical nature of protoplasm; the structure of cells, cell physiology; chemistry of foods; digestion; metabolism; circulation; respiration; endo-

* Open to Graduate Students.

DEPARTMENTS AND COURSES OF INSTRUCTION 41

crine function; the vitamins; excretion; the neuro-muscular mechanism. Designed for the general student and those interested in dietetics, hygiene, physical education, and medicine. (Biol. 11.) (Desirable antecedents, Chem. 11. and Biol. 21.)

Laboratory fee, \$20 for the year.

Professor BARNEY.

32.1 GENERAL ECOLOGY

The study of physical, chemical and biological factors of the environment as they affect plant and animal societies. Laboratory and field work will be directed to individual investigations of the flora and fauna of typical environments of the vicinity. Some attention will be given to the bearing of the science on human, economic and social development. Designed for the general student and also for those who plan to enter high school teaching or to give instruction in summer camps. (Biol. 11, 22, and special permission.)

Laboratory fee, \$5 for the semester.

Professor BARNEY and Mr. STULL.

42.1, 2 GENETICS AND EMBRYOLOGY.*

First semester—Genetics: theories of organic evolution; the principles of variation, selection, and heredity; the material basis of heredity, Mendelian inheritance and the application of its principles in animal and plant breeding and eugenics. Designed not only for students in biology but also for those specializing in the social sciences. Second semester—Embryology: a study of the development of the human body. Reproductive cells, maturation, fertilization, cleavage, and the development of the principal organs. The laboratory work consisting of practical histological technique, a study of the elementary tissues, early stages in the development of the chick, dissection and study of the later embryonic stages of the pig. (Biol. 11.)

Laboratory fee, \$10 for the year.

Professor LONGWELL.

45. SPECIAL.*

Individual research in a restricted field. (Permission.)

Laboratory fee, \$20 for the year.

Professor LONGWELL and Professor BARNEY.

* Open to Graduate Students.

CHEMISTRY

Professor VOTER
Assistant Professor HALLER
Assistant Professor WOMACK†
Mr. TURNER

Mr. TAFT and other Fellows

Courses required for Comprehensive Examination: 11. or 13.; 21.; 23.; 31.; 41.; or their equivalents; Mathematics 11. and Physics 21.1, .2, or their equivalents; general knowledge of the literature and historical development of Chemistry (covered by 33. when given); reading knowledge of either German or French, German preferred.

Courses recommended: Chem. 49, Economics, Psychology, Philosophy, and Logic. Additional work in Mathematics, Physics, and English, and a third science desirable.

A deposit fee to cover cost of broken apparatus is charged in each laboratory course, to be paid to the Treasurer at the beginning of each semester.

Students seeking Honors in this Department should consult with Head of the Department regarding additional requirements to those listed elsewhere in this catalogue.

11. INTRODUCTORY GENERAL CHEMISTRY.

Introduction to the fundamental principles of general chemistry, with the preparation and study of the elements and their more common compounds in the laboratory.

Laboratory fee, \$20 for the year and breakage.

Assistant Professor HALLER; Mr. TAFT and other Fellows.

13. GENERAL CHEMISTRY.

Similar to Chemistry 11, but more advanced. Open to students who have passed the Entrance Board examination in Chemistry and by permission to others who have had a satisfactory secondary school course.

Laboratory fee, \$20 for the year and breakage.

Assistant Professor HALLER, Mr. TAFT and other Fellows.

21. QUALITATIVE ANALYSIS AND INTRODUCTORY PHYSICAL CHEMISTRY.

Lectures and laboratory work. Complete analysis of inorganic substances including alloys, minerals and commercial products. Selected phases of elementary physical principles as a basis for understanding the underlying causes and technique of analytic and organic chemistry. (Chem. 11. or 13.)

Laboratory fee, \$20 for the year and breakage.

Professor VOTER, TAFT.

23. INTRODUCTORY ORGANIC CHEMISTRY.

Lectures and laboratory work on the carbon compounds. The methods of synthesis, properties, structures, industrial application, and

† On leave.

physiological action of the more important members of each group are studied in detail. (Chem. 11. or 13.)

Laboratory fee, \$24 for the year and breakage.

Mr. TURNER.

31. QUANTITATIVE ANALYSIS.*

Laboratory work and lectures dealing with the general methods of Quantitative Analysis, gravimetric, volumetric, and electrolytic. (Chem. 21. or 23.)

Laboratory fee, \$20 for the year and breakage.

Professor VOTER.

[33. HISTORICAL CHEMISTRY AND CHEMICAL LITERATURE.*]

A brief survey of the history of chemistry and development of chemical theory. A study of the literature of chemistry. (Chem. 21. or 23.)

[35. BIOLOGICAL CHEMISTRY.]

Lectures and laboratory work on the biochemistry of foods, digestion, nutrition and metabolism. Practical methods of blood and urine analysis; the chemistry of the tissues in health and disease. Meets the requirements of students concentrating in Home Economics and pre-medical students. This course should appeal to advanced students interested in the application of pure Chemistry to Biology. (Chem. 23., Biol. 41. at least simultaneously.)

Laboratory fee, \$20 for the year and breakage.

41. PHYSICAL CHEMISTRY.*

Lectures and laboratory work. A systematic presentation of modern chemical theory. The subject matter includes Atomic and Molecular theory; gases, liquids and solids; theory of solution; colloid chemistry and adsorption, reaction velocity, catalysis, and equilibrium in homogenous systems; The Phase Rule, Thermochemistry and Electrochemistry. (Chem. 21., 23., 31., at least simultaneously.)

Laboratory fee, \$20 for the year and breakage.

Assistant Professor HALLER.

43.1 ADVANCED ORGANIC.*

Lectures on the characterization of pure organic compounds. Unknown substances are analyzed qualitatively in the laboratory, and some introduction to the quantitative determination of the common elements and functional groups in organic compounds is given. (Chem. 23. and 31.)

Laboratory fee, \$12 for the semester and breakage.

Mr. TURNER.

43.2 ADVANCED ORGANIC.*

Advanced preparations, including a critical study of the mechanisms of important reactions with investigations of the original literature,

* Open to Graduate Students.

and individual reports on special problems. (Chem. 23. and 31. Chem. 43.1 is not a prerequisite.)

Laboratory fee, \$12 for the semester and breakage.

Mr. TURNER.

[45.2 INDUSTRIAL CHEMISTRY.*]

Lectures on the principal chemical industries, such as fuels, acids, gases, coal tar, etc. A study of the chemical reactions and apparatus used on a large scale. No laboratory work. (Chem. 23., 31., at least simultaneously.)

Fee for industrial trips, \$6.

[47.1 CHEMICAL MICROSCOPY AND SPECTROSCOPY.*]

Microscopic methods applied to chemical investigations. Study of crystalline compounds, recognition of paper and textile fibers. Rapid inorganic chemical analysis of minute samples. Spectroscopic methods applied to chemical investigations. Mapping and photographing spectra, spectroscopic analysis, detection of impurities. (Chem. 21., 23. and 31.)

Laboratory fee, \$10 and breakage.

49. ADVANCED GENERAL CHEMISTRY.*

A comprehensive survey of chemical principles and practice; the history and literature; modern methods; optical and electrical instruments; problems involving a limited amount of laboratory work; visits to industrial plants. Especially recommended for students majoring in chemistry. This course is substituted for courses 45.2 and 47.1, in 1935-36. (Chem. 41., at least simultaneously.)

Laboratory fee, \$10 for the year and breakage.

Assistant Professor HALLER.

51. RESEARCH.*

Open to properly qualified students. Recommended for candidates for the Master's degree and for Seniors seeking honors in chemistry. (Permission.)

Laboratory fee and breakage to be arranged individually.

a. Inorganic and Analytical Chemistry. Professor VOTER.

b. Analytical and Physical Chemistry. ASSISTANT PROFESSOR HALLER.

c. Organic and Biological Chemistry. MR. TURNER.

* Open to Graduate Students.

DEPARTMENTS AND COURSES OF INSTRUCTION 45

DRAMA AND PUBLIC SPEAKING

Associate Professor GOODREDS

Mr. SWYLER

Courses required for Comprehensive Examination: 31.1; 32.; 43.1; 42.2.

This department covers the work in play production, playwriting, the study of modern drama, public speaking and debating.

The courses are adapted to develop the students to the point where they may take charge of similar courses in college or in school, or be community leaders in the Little Theatre movement.

SPEECH 21.1 PRINCIPLES OF SPEECH. (Voice and Diction.)

Development and use of the speaking voice with special attention to social needs of speech; techniques of speech such as breathing, phrasing, intonation, and stress; a clear, pleasing, and well modulated voice, distinctiveness, acceptable pronunciation. Attention will be given to the elimination of throat fatigue, nasality, extremes of pitch, indistinctness, monotony, mispronunciations, and vocabulary. Individual guidance and criticism, and practice on voice and articulation exercises. Opportunities will be given to apply to the technique learned by practice in reading prose and poetry from the printed page, and short speeches. (Permission.) Seniors, Juniors and Sophomores.

SPEECH 21.2 PRINCIPLES OF SPEECH. (RHETORIC AND COMPOSITION)

A study of the principles which underlie effective speech. Attention given to the development of skill in judging needs of a speech occasion and in organizing and presenting one's ideas to an audience effectively. The relation of speaker and audience considered from the psychological standpoint. Rhetorical principles for the development of an adaptable and effective oral English style. Attention to the problems of exposition, interest and persuasion, argumentation. Work is also directed toward expressive action and pleasing platform manner. While most of the speeches are of the extemporary form prepared by outline before delivery, attention is given to the other forms. Maximum speaking practice with discussions and limited criticisms. Seniors, Juniors and Sophomores. (Permission.)

31.2 MODERN DRAMA.

Continental, English and some American drama of the recent and contemporary dramatic era. The course will deal mainly with the authors from Ibsen up to the present day, but will not confine itself to the study of plays written within a certain arbitrary period. The dramatic movement of recent times affords a unity that transcends that of dates. The work will attempt to apply the principles of this unity to the selection of plays for class study. Lectures, reading of a large number of plays, discussions. Seniors, Juniors and Sophomores.

32. PLAY PRODUCTION.

This course considers the organization of dramatics in schools, colleges, and community houses; it offers a study of the contemporary methods of Play Production; the principles and problems involved in

producing plays, staging, costuming, make-up, acting, lighting, directing, scenic design, etc., through the practical medium of the presentation of several long plays and numerous one-act plays in the College Playhouse. A study of plays available for production is made along with the study of production methods, thus building up a background of information necessary for intelligent adaptation of material. The applicant must have been actively interested in dramatics for at least one year before acceptance in the course. Each student is expected to spend several hours a week in laboratory work. (Permission.)

Laboratory fee, \$5 per year.

42.2 ADVANCED STUDIES.

Properly qualified Seniors may be permitted to undertake the study of advanced problems in the field of Drama. The approach will be two fold: through studies in play writing and consideration of special production problems. The course will be conducted mainly as a seminar. Students will be expected to spend considerable time in laboratory work. (Permission.)

Laboratory fee, \$2.50.

43.1 PLAY DIRECTION AND DRAMATIC INTERPRETATION.

This course offers training in the principles of play direction and the elements of acting which are included in the proper interpretation of dramatic rôles, improvisation; emphasis upon different forms of dramatic reading, training in diction, use of voice for dramatic effectiveness, modulation, stressing inflection; study of pantomime and stage business. Opportunity is given for direction in the experimental plays. (Permission.) Seniors and Juniors.

Laboratory fee, \$2.50 per semester.

Also see English 26.

DRAWING AND SURVEYING

Professor SWETT

21. MECHANICAL DRAWING.

Designed for two classes of students, (1) those preparing for the engineering profession, (2) those desiring a course in graphics as a preparation for making and reading plans and graphs.

Instrument fee, \$5.

31.1 ADVANCED DRAFTING.

A continuation of D. and S. 21. For part of the semester each student will elect some branch of drafting for specialization. (D. and S. 21.)

Instrument fee, \$2.50.

31.2 SURVEYING AND TOPOGRAPHY.

Lectures, field work, and drafting. Use of instruments; computations; plotting. (D. and S. 21.)

Instrument fee, \$2.50.

DEPARTMENTS AND COURSES OF INSTRUCTION 47

32.1 DESCRIPTIVE GEOMETRY.

Problems relating to lines and planes; to single curved, double curved, and warped surfaces; intersection of solids. (D. and S. 21.)

Instrument fee, \$2.50.

ECONOMICS

Professor FIFE

Assistant Professor RUSBY

Assistant Professor PRENTICE

Courses required for Comprehensive Examinations and Majors: 21., 31., 41., 48., 42.1 and 43.2 or their equivalent.

Recommended minor groupings, and cognate courses:

Minor History; 22 & 32....Pol. Sc. 11, 22 or 43; G. & G. 25; Soc.; Math. 22.
Minor Pol. Sc. 11, 22, 43.....Hist. 22, 32; G. & G. 25; Soc.; Math. 22.
Minor Soc'y 21.1, .2, 42..Hist. 22, 32; G. & G. 25; Pol. Sc. 11; Math. 22; Psyc.
Minor Math. 11, 22, 31.....Hist. 32; Pol. Sc. 43; G. & G. 25; Psyc. 21.
Home Ec. to be selected.....Hist. 32; Pol. Sc. 11; G. & G. 25; Psyc. 21; Phil.

20. ECONOMIC SOCIETY.

A survey of economic society stressing current economic conditions and problems. The course is designed to meet the needs of students who desire to take only one course in economics. This course will not be accepted in lieu of E. 21 as prerequisite for advanced courses in economics. Mid-year examination.

Sophomores, Juniors and Seniors.

Assistant Professor RUSBY.

21. THE PRINCIPLES OF ECONOMICS.

An introductory course covering the general field of economics. The basic concepts. The production and exchange of wealth. Value and price. The mechanism of exchange—money and banking, marketing, international trade, etc. The distribution of wealth—rent, wages, interest and profits. Labor problems. The types of economic organization of society—capitalism, socialism, communism, etc. Government finance and taxation. Mid-year examination.

Sophomores, Juniors. (Seniors by permission.)

Professor FIFE, Assistant Professors PRENTICE, RUSBY.

31. THE FINANCIAL ORGANIZATION OF SOCIETY.

A survey course. The development and functioning of financial institutions. Money and credit. Corporations and their financing. Commercial, investment, and savings banks. The American banking system. The stock exchange. Financing agriculture, real estate, etc. (Economics 21.) Mid-year examination.

Professor FIFE.

32. ECONOMIC HISTORY.

See Hist. 32.

Assistant Professor PRENTICE.

33.1 MARKETING AND THE PRINCIPLES OF EXCHANGE.

A study of market structures, and the marketing process, with special reference to agricultural products, raw materials, producers' and consumers' goods. Marketing functions, and the middleman structure. Relations between consumers, middlemen and producers. Co-operative marketing. Cases and problems. A case study is required. (Economics 21.)

Assistant Professor RUSBY.

33.2 TRANSPORTATION.

The development and significance of the modern systems of communication. The principles of land and water transportation. American experience and problems. The Interstate Commerce Commission and the railways. The Merchant Marine past and present. Government Control and Government Ownership of transportation facilities. Labor Problems and the Carriers. (Economics 21.)

Assistant Professor Rusby.

[34.2 CORPORATION FINANCE AND INVESTMENTS.]

The rise of Corporate forms of organization. The promotion and financing of the corporation. Raising and managing capital. Principles of investment, and the analysis of securities. (Economics 21. and 31. Economics 31. and 34.2 may be taken contemporaneously.)

[37.1 THE PRINCIPLES OF ACCOUNTING.]

Interpretative accounting. The bookkeeping process is reduced as much as possible, and interpretation stressed. The rudiments of business statistics. (Major work in Economics.) (Economics 21. Not counted towards a major.)

41. LABOR CONDITIONS AND PROBLEMS.*

The course deals first with the origin of labor problems, the rise of capitalism and the wage system, freedom of contract, etc. Second, labor conditions and the standard of living. Third, the workers' approach to their own problems—collective bargaining, the trade union, and the workers' philosophy. Fourth, the employers' approach to the labor problem—the employers' associations, labor management, and employer philosophy. Fifth, the social approach to the labor problem—the social conflict between capital and labor, labor legislation, and social goals and welfare. (Economics 21.) Mid-year examination.

Assistant Professor RUSBY.

42.1 GOVERNMENT FINANCE.*

The evolution of Government Finance. Governments as collective spending agencies. The modern increase in public expenditures, and the need for budgeting. The various forms of revenue. Taxation and tax incidence. Public industries, public domain, and public

* Open to Graduate Students.

DEPARTMENTS AND COURSES OF INSTRUCTION 49

monopolies. Public credit, and the public debt. (Economics 21. and 31., also open to students taking major work in Government.)

Professor FIFE.

[42.2 SOCIAL CONTROL OF ECONOMIC ACTIVITY.*]

The course is conducted on seminar basis with thesis. It aims to discuss the economic philosophy of modern times, and deals primarily with the relations between government and the economic activities of the people such as competition and monopoly, regulation and control, promotion and prohibition, capitalism versus socialism, and other suggested forms of economic organization of society.

Seminar for Honor or Graduate Students.

43.2 INTERNATIONAL TRADE AND FINANCE.*

International Trade in theory and practice. Our markets and competitors. Governmental regulation of international trade. Free Trade, Tariffs, Reciprocity, Preferences, and most favored nations agreements. (Economics 42.1.)

Professor FIFE.

[44.2 APPLIED ECONOMICS.*]

The course deals with major economic problems in such a fashion as to correlate economic principles with the currents of economic society. (Option for comprehensive exams.) (Permission.)

45.1 MONEY AND BANKING.

An advanced course studying the development of money and banking in U. S. and the major foreign banking systems, the Federal Reserve System, and International Banking. (Economics 21. and 31.)

Professor FIFE.

48. ECONOMIC THOUGHT AND MODERN ECONOMIC TENDENCIES.*

A study of economic thought as it has evolved in the light of economic history, and present tendencies in economic thought and theory. (Economics 21. Seniors only. Required of all major students.) Mid-year examination.

Assistant Professor PRENTICE.

[46. HONORS AND SPECIAL COURSES.*]

Special courses for graduate and honor students and for research work may be arranged to suit the needs of students.

Note: Those interested in economics as their major study are advised to elect as many of the following courses as possible: economic geography, economic history, business law, mathematics of finance and statistics. Courses in psychology, philosophy and sociology are also recommended where possible. These are regarded as related and allied fields. Honor students must offer Economic History (Hist. 32.) and Economic Geography (G. and G. 25. 1, .2). Students preparing for business should make a special effort to secure a good grounding in English.

Honor students are required to take a written general examination covering the special field of interest, and an oral general examination covering the entire field of economics as offered in the courses. In addition a thesis is required based on independent study and research.

* Open to Graduate Students.

EDUCATION AND PSYCHOLOGY

Professor HOWARD

Professor ADAMS

President MOODY

* Associate Professor SHOLES

Notes on courses in Education:

Majors in Education are not permitted. Students planning to teach should be prepared in at least one subject in addition to their major.

The requirements for certification vary in eastern states. This department has adopted the New York requirements as standard. They are as follows:

Two courses (3 semester hours each) shall be completed in each of the following groups. The numbers of the courses in this department which will satisfy the requirements in each group are indicated in parentheses.

I. Educational Psychology (21.1, 34.2).

II. History, philosophy, principles and problems of education (23.2, 34.1.).

III. Methods—general; special; observation and practice teaching (41.1, 42.1, 42.2, and the courses in special methods offered in the various departments.) Practice teaching is recommended but not required. Those not offering practice teaching credit should have six hours in methods either special or general and special combined.

The New York requirements cover those of all the New England States except Rhode Island.

The sequence recommended in the courses indicated above are: Sophomore year, 21.1, 23.2; Junior year, 34.1; 34.2; Senior year, 41.1, 42.1, 42.2, and special methods.

Notes on courses in Psychology:

No major in Psychology is offered but students having special interest in the subject may arrange for a correlation of courses between this department and the Departments of Philosophy or Sociology. See courses 45.1, 45.2.

21.1 INTRODUCTION TO PSYCHOLOGY.

A study of the essential facts and principles of human behavior. The inborn tendencies and their functions; the various conscious processes; learning and habit formation; intelligence; individual differences; factors in human personality; social behavior; fields and methods of psychology. (Open to the three upper classes.) Prescribed for students of Education and recommended for those in Philosophy and Sociology.

Professor HOWARD.

22.2 SOCIAL PSYCHOLOGY.

A study of the forms of human behavior which characterize the group; their relation to social progress, nationality, community and institutional life, and individual development. (Educ. 21.1.)

Book fee, \$5.

Associate Professor SHOLES.

23.2 HISTORY OF EDUCATION.

The historical evolution of educational theories and practices. Great educational reformers and their influences. Present-day education in relation to the past. Following a study of the European background, emphasis will be given to the development of present American systems of education. (Educ. 21.1.)

Professor ADAMS.

DEPARTMENTS AND COURSES OF INSTRUCTION 51

24.2 FIELDS OF PSYCHOLOGY.

A survey of the problems, interpretations, principles, methods, and achievements in the major fields of psychology. The contribution of psychology to human welfare will be emphasized. (Education 21.1 and permission.)

Professor HOWARD.

34.1 PHILOSOPHY OF EDUCATION.

The scientific and philosophical bases of current educational practices. The aims of education. Principles involved in the selection and organization of subject matter and in the learning process. Aims and achievements of recent re-organizations. The influence of progress and geographic conditions upon education. Some inherited problems. Study of such problems as interest and motivation, individual differences, moral and civic instruction, training for appreciation, efficiency in the school room.

Two courses in Education.

President MOODY.

34.2 EDUCATIONAL PSYCHOLOGY.

Innate tendencies and capacities; heredity; individual differences and their significance in education; individual and group intelligence tests; types and principles of learning; mental training and transfers; mental attitudes; educational tests and their uses. (Educ. 21.1.)

Professor HOWARD.

41.1 METHOD IN SECONDARY EDUCATION.

Study of type of teaching, type and function of recitation, supervised study, collection and use of materials, use of teachers' devices, general and special method technique of instruction, textbook criticism, announcement and presentation of lessons and use of educational literature. (Seniors only.)

Professor ADAMS.

42.1, 2 PRACTICAL WORK IN EDUCATION.

A limited number of qualified seniors are given an opportunity to do apprentice work at the local high school. This consists of observation, reading papers, supervising laboratory work, giving special assistance to pupils individually or in small groups, and at times taking charge of the class under the direction of the teacher. The details of the work will vary according to the nature of the subject but each apprentice teacher will be given much first-hand experience with problems of management and instruction. Frequent group conference with an instructor in the Department will be required. (Permission.)

Professors HOWARD and ADAMS.

45.1 ADVANCED STUDIES IN PSYCHOLOGY.

Open to graduate students and qualified seniors who wish to pursue psychological study beyond that offered in Educ. 21.1, 22.2, 24.2, and 34.2.

The course will be organized on the seminar plan, each student pursuing some line of investigation and presenting his material from time to time for critical discussion and review by members of the class and the instructor. (Three courses in psychology and permission.)
Professor HOWARD.

COURSES IN SPECIAL METHODS.

The following departments offer courses in special methods. Descriptions of these courses are given under the announcements of the respective departments.

English
French
German

History
Latin

Mathematics
Physical Education
Spanish

ENGLISH

Professor BEERS¹
Professor CADY
Associate Professor OWEN²
Assistant Professor PERKINS
Mr. BROWN
MR. HAMMOND
Miss OETJEN

Dr. ADAMS

Courses required for Comprehensive Examination: 11.; two of the following courses: 22.1 and 23.2 (considered as one course), 32., 31.

Courses recommended: English History; English Literature course in sophomore year.

1. *Freshman Required Course:*

Freshmen who have had a course in the History of English Literature in high school may, upon passing an examination in September with a grade of 75, be excused from this course, but must elect other English courses of B grade. Examination carries no credit for the course.

(No student will be allowed credit for Freshman English, English 11., History of English Literature, who has failed to attain an average of 75 in his composition work for freshman year. When such student can give evidence that he has passed English Composition, English 21., credit for his Freshman course will be restored.)

11. HISTORY OF ENGLISH LITERATURE.

Required of all Freshmen.

A rapid but intensive survey of all the periods of English Literature studied in chronological order with direct relation to historical background. Representative works from all the major and from several minor literary men are read. While primarily a course in the History

¹ On leave.

² On leave First Semester.

DEPARTMENTS AND COURSES OF INSTRUCTION 53

of Literature training in composition is given and definite theme assignments are made for each month. Mid-year examination. Assistant Professor PERKINS, Mr. BROWN, Mr. HAMMOND, Miss OETJEN.

II. Courses in Literary History:

[41.1 ENGLISH LITERATURE FROM THE ANGLO-SAXON PERIOD TO CHAUCER.*]

The work extends chronologically from about 500 to about 1350 and includes readings from the Old and Middle English prose and poetry. The Old English will be read in translation, the Middle English in the original. (English 11. and permission.)

31. ENGLISH LITERATURE FROM 1400 TO 1660.

A study emphasizing the literature, with the exception of the drama, as a record of the main currents of thought throughout the period. The early humanists Spenser and Milton, will receive the major emphasis. (English 11. and permission.)
Professor CADY.

32. ENGLISH LITERATURE FROM 1660 TO 1800.

A study in the development of literature from 1660 to the beginning of the nineteenth century. Particular consideration given to the Neo-classic school and to the Pre-Romantic writers. (English 11. and permission.)
Mr. HAMMOND.

[22.1 PROSE AND POETRY OF THE ROMANTIC PERIOD.]

The major representatives of the Romantic Movement, from Wordsworth to Tennyson, including the forerunners of the movement and its underlying philosophy. (English 11.)

[23.2 PROSE AND POETRY OF THE VICTORIAN PERIOD.]

The Victorian poets and essayists. Particular attention to the poets—Tennyson, Browning, Rossetti, Morris and to the essayists—Carlyle, Ruskin, Arnold. (English 11.)

42.1 STUDIES IN ELIZABETHAN LITERATURE. (Milton.)*

A study of his poetry to determine the quality of his mind and his outlook upon life. (English 31. and permission.)
Professor CADY.

III. Courses in the Drama:

30. SHAKESPEARE.

A detailed reading of certain typical plays with the purpose of developing an intelligent appreciation of them as drama. (English 11. and permission.)
Professor CADY.

* Open to Graduate Students.

35. ELIZABETHAN DRAMA.

The main trends of dramatic development from 1580 to 1642 with especial attention to the growing perception of dramatic theory and technique. (Permission.)

Professor CADY.

IV. Courses in Composition:

21. ELEMENTARY COMPOSITION.

Rudimentary training in the mechanics of composition by means of readings, weekly themes, and classroom conferences. Required of students whose themes in English 11. have been unsatisfactory, and elective to such others as are actually handicapped by deficiencies in self-expression. (English 11. and permission.) Mid-year examination.

Mr. BROWN.

[26. ARGUMENTATION AND DEBATE.]

The theory and practice of argumentation. A study of principles, assembling material and briefing arguments with extensive practice in formal debate. Each student is required to take part in at least one public debate. (English 11. and permission.)

[28. WRITING FROM MODELS.]

An intermediate course in composition for students who, though not incompetent in writing, desire to discover their own abilities or need to gain greater fluency and effectiveness through practice in the shorter literary types. A background of literary principles will be derived through readings in several of the more interesting contemporary authors. (English 11.)

[36. INTRODUCTION TO PRINCIPLES OF JOURNALISM.]

A comprehensive survey of newspaper and magazine journalism, with practice in writing various forms. (English 11. and permission.)

38. LITERARY COMPOSITION.

Practice in the writing of the shorter literary types such as the various forms of story, essay and poem, with some work in the editorial and news article elective to those who desire it. Weekly conferences on individual problems, and informal class room discussions of literary principles. Mid-year examination. (English 11. and one other course in English or American Literature.)

Mr. BROWN.

V. Courses in the study of Types and Forms of Literature and of Individual Writers:

24. THE ENGLISH NOVEL.

A study of the development of English fiction from the beginnings through Conrad. Reading and discussion of representative novels

by the best novelists, study of personalities, influences, movements story types and critical standards presented in class by the instructor. (English 11. and permission.)

Assistant Professor PERKINS.

34. COMPARATIVE FICTION.

A comparative study of recognized masterpieces of Continental fiction, based on the student's knowledge of the history of English literature and of the English novel in particular. Reading and analysis of outstanding novels from Russia, France, Germany, Spain and Italy, Poland, Norway, Sweden, Austria, with emphasis upon class reports and discussion by the students. Talks by the instructor on additional books and writers, and on the history and background of the novel in each of the countries considered. (Two years of English and permission.)

Assistant Professor PERKINS.

39.2 LITERARY CRITICISM.

In this course various types of literary criticism will be studied and the advantages and limitations of each type will be discussed in order that a sound method for criticizing various types of literature may be evolved. Next, standards of criticism which should be of practical use in evaluating the student's literary experience will be formulated. Emphasis will be placed upon actual criticism of contemporary literature. (Permission.)

Associate Professor OWEN.

33.2 THE POETRY OF ROBERT BROWNING.

An intensive study of the poetry of Browning. The manifold philosophic, musical and artistic interests of the poet will be considered as they reveal themselves in his work and an effort will be made to interpret that work in the light of a cultural background which has no equal among English writers. (Permission.)

Associate Professor OWEN.

37. THE ENGLISH BIBLE.

A study of how the Bible grew, its literature and the development of religion through the Scriptures. The purpose of this course is to give a general knowledge of the Bible which a cultured person should have. Lectures, reading and discussions. Juniors and Seniors. Doctor ADAMS.

[41.2 CHAUCER.*]

Selective important works of Chaucer will be read. The influence of Chaucer on the development of English literature, attitudes of scholars and critics toward Chaucer. Informal discussions, readings and reports. (English 11. and permission.)

* Open to Graduate Students.

[43. POETICS.]

The study of the groundwork of poetic appreciation. (Two-year courses in English Literature.) (Permission)

[44. RESEARCH AND SPECIAL WORK.*]

Students properly qualified to do independent study will be given opportunity to carry on special work under the direction of a member of the Department.

[45.1 CONTEMPORARY ENGLISH POETRY.]

Readings and informal discussions of Modern English Poetry. (Permission.)

46.2 METHODS OF TEACHING ENGLISH.*

Designed for students majoring in English. The course is planned to give the student a definite knowledge of those English writers and works studied in high school with some supplementary instruction in methods of presentation of material. (Three-year courses in English or American Literature.)

Professor CADY.

FINE ARTS

Professor BURRAGE

Associate Professor OWEN

31.2 THE APPRECIATION OF ART.

Associate Professor OWEN.

32.1 GREEK ART.

Instruction is given by lectures and stereopticon talks, supplemented by extensive reading on the student's part. Written tests come frequently. The art and civilization of Assyria, Egypt and other nations whose work had a formative influence on the Greeks are treated by way of introduction to Greek art proper.

Professor BURRAGE.

* Open to Graduate Students.

DEPARTMENTS AND COURSES OF INSTRUCTION 57

FRENCH

Professor FREEMAN
Associate Professor RANTY
Assistant Professor BINAND
Assistant Professor TELLE
Mlle DELONGLÉE

Courses required for Comprehensive Examination: 12.; 21.; 31.; 32.; or their equivalent.

Courses recommended: 41.1; 42.; 44.; for prospective teachers, 41.1, .2; boarding at Le Château.

11. ELEMENTARY FRENCH. REVIEW COURSE.

This course is especially designed for Freshmen whose preparation is insufficient to enable them to profit by the work offered in the usual Freshman course French 12. Students who have had only one year of French, or who have not studied the language recently, or who have had no practice in hearing French spoken, should elect this course. Beginners will be accepted only on special permission. The course will consist of a thorough review of the elements of French grammar, with considerable reading, and much emphasis on the spoken language. Professor RANTY.

12. INTERMEDIATE FRENCH.

The usual Freshman course for students with two or three years of average grammatical preparation, and some practice in hearing and speaking the language. There will be a systematic review of the essentials of French syntax, composition, oral work, dictation, and extensive reading from standard authors. The course is designed to lay a solid foundation for more advanced work in the department. Professor RANTY and Mlle DELONGLÉE.

21. COMPOSITION AND READING.

Composition of moderate difficulty based on a French text, a review of grammar, free composition, dictation and conversation. Reading of modern prose, short novels, plays, with discussion in French of the works read. Designed to give the student a command of the written and spoken language, and to enable him to read easily and assimilate a literary text. (Prerequisite, French 12, Freshmen with exceptional preparation will be admitted on special permission.) Professor FREEMAN, Associate Professor RANTY, Assistant Professors BINAND and TELLE, and Mlle DELONGLÉE.

31. SURVEY OF FRENCH LITERATURE.

A rapid but intensive study of works of the best authors, from the Middle Ages to the end of the nineteenth century, including representative plays, poetry and novels. Written reports. Class discussion of literary values, and an outline of literary history. (French 21.) Professor FREEMAN.

32. ADVANCED GRAMMAR AND ADVANCED COMPOSITION.*

A systematic and thorough review of French grammar, with special stress upon the difficult points of syntax; vocabulary building; French idioms; composition based on idiomatic texts; the elements of French style, and translation into French of English stylists. Designed to give the final preparation in written French to students who intend to teach. (French 21.)

Professor FREEMAN.

41.1 METHODS OF TEACHING FRENCH.*

A study of the modern methods of teaching French; extensive reading in the recent treatises on modern language pedagogy. The oral method and its applications; the selection of textbooks; the use of realia in the classroom; practical demonstrations of class work, and practice teaching. (French 21.)

Professor FREEMAN.

41.2 PHONETICS AND DICTION.*

An analytic and comparative study of French sounds. A description of the organs of speech. Practice in the phonetic alphabet. Special attention given to the difficulties experienced by American students in perceiving, producing, and combining French sound groups. Systematic exercises in pronunciation and intonation. The use of phonetics in teaching French in high schools. (French 21.)

Associate Professor RANTY.

42. CONVERSATION AND VOCABULARY.*

Designed to develop fluency in speaking French, and a command of idiomatic expression. Organized vocabulary development and oral composition on the basis of French life and customs. (French 21 and permission.) May be taken either half year for credit.

Assistant Professor BINAND.

43. FRENCH LITERATURE OF THE NINETEENTH CENTURY.*

A detailed study of the great literary movements of the last century; romanticism, realism, and symbolism. Careful analysis of texts and literary theories in class discussions; extensive outside reading of novels, plays and poetry; written and oral reports. A survey of literary history continued down to the present, with an attempt to indicate the chief tendencies of contemporary literature. (French 31.)

Assistant Professor TELLE.

44. FRENCH CIVILIZATION.*

An analysis of the development of the French nation. The geography of France; an outline of its political history; the growth of its arts, sciences and institutions; the meaning of French culture, and of French political, educational and religious life; and an interpretation of modern France in the light of its history and growth. Designed

*Open to Graduate Students.

DEPARTMENTS AND COURSES OF INSTRUCTION 59

to help students to understand the country and its people, either for teaching or for travel.

This course is required of Seniors majoring in French; during the second semester the regular work of the course will be supplemented by tutorial conferences on topics of individual reading and research, especially designed for Honors candidates, and by weekly meetings for discussion and review in preparation for the comprehensive examination.

Assistant Professor TELLE.

45. SPECIAL. (Individual research in a restricted field.)*

Candidates for the Master's Degree and Seniors, if properly qualified, may be permitted by the Chairman of the Department to undertake a special problem in reading and research under the direction of some member of the department. This work, which will count as a full course, will require at least nine hours of study a week. The student will meet the instructor one hour each week, for discussion and guidance. A thesis, or an examination, or both, will be required at the end of the course. Properly qualified graduate students may undertake two such separate problems.

a. Literature from the Middle Ages to the contemporary period.

Professor FREEMAN, Assistant Professor TELLE.

b. Civilization, Geography, and History.

Assistant Professor TELLE.

c. Grammar and Teaching Methods.

Professor FREEMAN.

d. Phonetics.

Associate Professor RANTY.

Note 1: All courses in the French Department are conducted in French, at the Château. Students intending to teach French after graduation should attend at least courses 31., 32., 41.1 and 41.2.

Note 2: No thesis is required for the Master's Degree except such dissertations as are required in the separate courses pursued.

GEOLOGY AND GEOGRAPHY

Professor SWETT

Associate Professor SCHMIDT

Courses required for Comprehensive Examination: 21.1, .2; 31.1, .2; 32.2; 25.2; 41.; Drawing and Surveying 21.1 and 31.2.

I. GEOLOGY

21.1 PHYSICAL AND STRUCTURAL GEOLOGY.

The physical features of the earth; the agencies responsible for our topography; the structure of the earth's crust; and the more important rocks and minerals. Field trips.

Fee, \$3 (covers field trips).

Associate Professor SCHMIDT.

* Open to Graduate Students.

21.2 HISTORICAL GEOLOGY.

The probable origin of the earth; the rise and evolution of organic forms as disclosed by fossil remains and the causes responsible for this progressive development; and the past history of oceans, climates, and continents. Field trips. (Geo. 21.1.)

Fee, \$1.50 (covers field trips).

Associate Professor SCHMIDT.

31.1 MINERALOGY.

The identification of the important minerals by blowpipe, flame, assay, bead and sensitive chemical test. The crystal structure of the minerals will also be considered. Field trips. (Geo. 21.1 or Chem. 11., or permission.)

Laboratory fee, \$5.

Associate Professor SCHMIDT.

31.2 ECONOMIC GEOLOGY.

The metallic and non-metallic mineral products of the United States and their world-wide distribution (coal, petroleum, salts, fertilizers, iron, copper, gold, silver, etc.); their origin, processes by which formed or later changed, their geologic structure, their abundance and economic importance. Field trips and reports. (Geo. 21.2 and 31.1.)

Associate Professor SCHMIDT.

[32.2 GEOLOGY OF NORTH AMERICA.]

A detailed survey of the geologic history, the rock structures, and the mineral deposits of the different physiographic provinces of North America. Classroom discussion, outside reading in Geologic Literature, and reports. (Geo. 21.2 or permission). (Alternates with Geo. 31.2.)

41. SPECIAL.

Individual research in a restricted field. Limited to students majoring in Geology and Geography.

Associate Professor SCHMIDT.

II. GEOGRAPHY

Courses recommended for Comprehensive Examination: 25.; 35.1, .2; 45.; Economics 21.; Drawing and Surveying 21.1, .2.

25. ECONOMIC GEOGRAPHY.

Physical facts of man's geographic environment; their relation to man's economic activities, especially to industry and commerce. This course is designed both as a part of a liberal education and for students who expect to enter business.

Professor SWETT, Associate Professor SCHMIDT.

DEPARTMENTS AND COURSES OF INSTRUCTION 61

35.1 GEOGRAPHY OF THE WESTERN HEMISPHERE.

A regional study of the physical and economic geography of the Western Hemisphere. (Geo. 25.)

Professor SWETT.

35.2 GEOGRAPHY OF THE EASTERN HEMISPHERE.

A regional study of the physical and economic geography of the Eastern Hemisphere. (Geo. 25.)

Professor SWETT.

45. SPECIAL.

Individual research in a restricted field. Limited to students majoring in Geology and Geography.

Professor SWETT.

GERMAN

Professor SKILLINGS

Associate Professor NEUSE

Courses recommended for Comprehensive Examination: 31.; 32.; 41.; 42.; 44.;

History 34.; 41.

11. BEGINNERS' GERMAN.

Elements of phonetics, drill in pronunciation and comprehending the spoken language; elements of grammar; reading of simple prose.

Professor SKILLINGS and Associate Professor NEUSE.

21. INTERMEDIATE GERMAN.

Grammar review; reading, composition, conversation and free reproduction. (German 11. or two years of preparatory school German.)

Professor SKILLINGS and Associate Professor NEUSE.

22. SCIENTIFIC GERMAN.

A course for those who wish to acquire the ability to consult German works in the natural sciences, history, economics, etc. In the second semester members of the course select the subject (*e.g.* Biology, Chemistry, Economics, History, Mathematics, etc.) in which they wish to do the most of their reading. Mid-year examination. (German 11. or equivalent.)

Associate Professor NEUSE.

31. CONTEMPORARY GERMAN.

A course which aims to develop facility in reading and writing German in order to prepare the students for the more advanced courses. The basis of study is contemporary German fiction, drama, lyric poetry, and non-fiction prose. (German 21, or equivalent.)

Professor SKILLINGS.

32. WRITING AND SPEAKING GERMAN.

A course designed to give abundant practice in the oral and practical elements of the language and in written composition. (German 21. or equivalent.)

Associate Professor NEUSE.

41. GOETHE AND SCHILLER.*

A study of the masterpieces of Goethe and Schiller, and the development of German Literature in the great classic period. (German 31.)

Given in alternate years with German 42.

Professor SKILLINGS.

[42. GERMAN LITERATURE OF THE NINETEENTH CENTURY.*]

Representative dramas, short stories, novels and poetry are read and discussed. The development of German literature through the nineteenth century to the present time is also studied. (German 31.)

Given in alternate years with German 41.

[43. SURVEY OF GERMAN LITERATURE AS FAR AS LESSING.*]

The course is designed to give a comprehensive knowledge of the great men and the leading ideas in German literature from Middle Ages through Lessing. The course is given in alternate years. (German 31.)

44.1, .2 CONTEMPORARY GERMAN CIVILIZATION.

The first semester will be devoted to a study of the German people, its geographical, historical, economic, and political background, German art and folklore. In the second semester principally contemporary works of German literature will be studied with a view to an interpretation of the character of the German people. Mid-year examination. (German 31.) Given in alternate years.

Associate Professor NEUSE.

[45.2 THE TEACHING OF GERMAN.]

A study of German pronunciation, grammar, reading and composition from the standpoint of the prospective teacher. Training in the direct method. Discussion of such topics as the aims and methods of modern language study, textbooks and Realien. (German 31. or permission.) Given in alternate years.

GREEK

Professor BURRAGE

Courses required for Comprehensive Examination: 11.; 21.1, .2; 31.1, .2; 42.1, .2; or 41.1, .2.

11. BEGINNERS' GREEK.

* Open to Graduate Students.

DEPARTMENTS AND COURSES OF INSTRUCTION 63

21.1 COLSON'S GREEK READER AND THE GOSPEL OF MARK.
(Greek 11. or its equivalent.)

21.2 HOMER'S ODYSSEY.
(Greek 21.1.)

(Greek 11. or Greek 21.1, .2 or Latin 11. is required of A.B. Freshmen.)

31.1 EURIPIDES' "IPHIGENIA AMONG THE TAURIANS"; LYRIC
POETS.

Lectures are given on the origin, history, and purpose of the drama.
(Greek 21.1, .2.)

31.2 PLATO'S APOLOGY.
(Greek 31.1.)

41.1 SOPHOCLES AND AESCHYLUS.

The *Electra* of Sophocles; the *Prometheus* of Aeschylus. (Greek 31.2.)

41.2 ARISTOPHANES.

The *Clouds* and *Birds*. (Greek 41.1.)

[42.1 PLATO'S REPUBLIC.]
(Greek 31.2.)

[42.2 ARISTOTLE'S ETHICS.]

Courses 42.1, .2 alternate with 41.1, .2. They afford students of philosophy and ethics a chance to read in the original tongue the two masterpieces of the two greatest minds of antiquity. The charm of the *Republic* as literature will receive special emphasis. (Greek 42.1.)

HISTORY

Professor KLINE

Associate Professor DAVISON

Professor WHITE

Assistant Professor PRENTICE

Courses required for Comprehensive Examination: 12.1, .2; 22.; 34.; 35.1; 33.2; 23. or 46.; (students majoring primarily in European history should take 23., those majoring in American history 46.).

Courses recommended: One year each of economics, political science, and geography and, for those majoring in American history, one year of American literature.

12.1, .2 POLITICAL AND SOCIAL HISTORY OF WESTERN EUROPE.

European institutions and civilization from the fall of Rome to the present day.

Associate Professor DAVISON.

22. AMERICAN HISTORY.

A general course covering the period from the adoption of the Constitution to the present time.
Professor KLINE.

23. MODERN ENGLISH HISTORY.

The history of England and the development of the British Empire from the Tudor times to Commonwealth of Nations of recent years.
Associate Professor DAVISON.

32. SOCIAL AND ECONOMIC HISTORY OF THE UNITED STATES.

A survey of the economic development of western Europe from the decline of manorial economy to the expansion of Europe to America, followed by a brief study of the economic advance of the English colonies during the colonial period, and a more extensive study of various phases of the social and industrial life of the American peoples during the national period to the present time. (History 12. or permission.)

Assistant Professor PRENTICE.

33.2 ANCIENT HISTORY.

Development of ancient civilization, with special emphasis on Greece and Rome. Much attention is paid to the use of sources, as being of extreme importance in supplying the proper viewpoint and stimulus especially to those who are to teach ancient history in high school.
Professor WHITE.

34. MODERN EUROPE, 1648-1930.

A study of the development of the European nations from the Peace of Westphalia to the present, placing special emphasis upon the establishment of the pre-Revolutionary European state systems, the French Revolution and Napoleonic era, the growth of democracy and nationalism, and the expansion of European political influence in Africa and Asia. (Hist. 12.1, .2.)

Associate Professor DAVISON.

[35.1 AMERICAN COLONIAL HISTORY.]

A course covering the period from the beginning of the English colonization to the close of the Revolution.

41. CONTEMPORARY WORLD POLITICS.*

A survey of the field of international relations with special reference to the problems arising out of the World War.

Professor KLINE.

[43.2 THE TEACHING OF HISTORY.*]

A course for students who intend to teach history in high school.

* Open to Graduate Students.

[44.2 LATIN AMERICAN HISTORY.]

A discussion course dealing with Latin American History, institutions and civilization during the colonial, revolutionary and independent periods. Intended primarily for Seniors.

45.1 THE DEVELOPMENT OF WESTERN CIVILIZATION.*

A general survey of the development of modern civilization from early times to the present. (This course is designed with special reference to the needs of students who are able to take only one year of work in the department.)

Professor KLINE.

46. ADVANCED STUDIES IN HISTORY.*

An intensive study of some limited phase of history for the purpose of affording training in methods of historical research, critical evaluation of sources, and scholarly presentation of the results of historical investigation. The subject for study in 1936-37 will be the Development of American Thought and Culture. (Permission of instructor.)

Professor KLINE.

HOME ECONOMICS

Professor KNAPP

Miss BOWLES

Miss GIBSON

Courses required for Comprehensive Examination: ten semesters work in the department including 35.1 or 35.2 and Physical Education 36.2.

Courses recommended: Chemistry; Biology; Physiology; Physics; Economics; and Sociology.

11. FOODS AND NUTRITION.

Fundamentals of nutrition; selection and preparation of all foods commonly used in the home; meal planning and serving. Recitations, lectures and laboratory work.

Laboratory fee, \$20.

Miss GIBSON.

21. CLOTHING AND TEXTILES.

The fundamental stitches; use of patterns; hand and machine sewing applied to simple garments; elementary design and a study of textiles.

Laboratory fee, \$6.

Professor KNAPP.

31. ADVANCED FOOD STUDY IN UNITS.

Several units will be considered, such as food preservations; intensive study of certain phases of food preparation; study and preparation of low cost diets; food buying and marketing; comparative cook-

* Open to Graduate Students.

ery. The length of time devoted to each unit will depend upon the interests and needs of the students. (H. E. 11, Chem. 11.)

Laboratory fee, \$20.

Miss GIBSON.

33.1 HOUSEHOLD ADMINISTRATION.

Woman's place in the home and the community; selection, arrangement and use of household equipment; sanitation; heating; lighting; care of the house; domestic service; division of income and accounting. (H. E. 11.)

Professor KNAPP.

34.2 HOUSE PLANNING AND DECORATION.

Development of the house; study of house plans; house construction; planning of grounds; design as applied to houses; color schemes; the choosing of appropriate and harmonious furniture and draperies; study of period furniture. (H. E. 33.1 or H. E. 21. or permission.)

Professor KNAPP.

35.2 HOME MANAGEMENT HOUSE.

Practical application of the principles of household management, including budget making and household accounts, planning, buying, preparation and serving of meals, and care of the house. (Permission of instructor.)

Professor KNAPP.

41.1 CLOTHING AND MILLINERY.

Study of design in relation to the entire costume; study of period costume; construction of silk and wool dresses and of hats. (H. E. 21.)

Laboratory fee, \$3.

Professor KNAPP.

[41.2 ADVANCED CLOTHING AND MILLINERY.]

A continuation of 41.1 with emphasis on the development of originality in design; study of economic aspects of the clothing problem; construction of dresses, coats and hats of various materials. (H. E. 41.1.)

Laboratory fee, \$3.

42.2 METHODS. (Same as 42.1.)

Methods of teaching Home Economics; planning courses of study; making lesson plans; practice teaching; studies in equipment. (Five courses in Home Economics.)

Professor KNAPP and Miss GIBSON.

[43.2 DIETETICS.]

Principles of nutrition; chemistry and physiology of digestion; dietary standards; diets under different conditions; children's diets; school lunches; invalid cookery; detailed work in preparation and cost of balanced meals. (H. E. 31, Biol. 41, 2 years Chem.)

Laboratory fee, \$8.

DEPARTMENTS AND COURSES OF INSTRUCTION 67

ITALIAN

Professor WHITE

21. BEGINNERS' ITALIAN.

Attention given to correct pronunciation; much oral practice; reading of simple selections; careful preparation in grammar and vocabulary for the more advanced literary and spoken Italian. Italian will be the principal language used in the classroom.

[31. SECOND YEAR ITALIAN.]

More detailed study of grammar and vocabulary. Reading of the literature, with class discussion and oral practice to give training in fluency. Foundation laid for further study of Italian literature and culture. (Italian 21. or equivalent.)

LATIN

Professor WHITE
Professor BURRAGE
Professor DAME¹

Courses required for Comprehensive Examination: 11.; 21.1, .2; 31. or 32.; 41.1; History 33.2.

11. LIVY, CICERO AND LATIN POETRY.

The Second Carthaginian War. Translation, prose exercises, study of vocabulary and syntax. Selections from the *Letters* or *De Amicitia* of Cicero. The story of the struggle between Republic and Empire, with the fortunes of Cæsar and Cicero, as written in the *Letters*. Selections from some of the most representative Latin poetry of all periods, intended to give the student a view of the wide range of Latin literature.

Professor DAME.

(*Latin 11. or Greek 21.1 and 21.2 or Greek 11. is required of A.B. Freshmen.*)

21.1 PLINY THE YOUNGER.

Selections from the *Letters* are made, presenting a large number of references to life and customs, and intended to bring the student into close touch with the daily life of the Romans. This course is requisite to all the courses following. (Latin 11.)

Professor WHITE.

21.2 HORACE.

Selected *Odes* and *Epodes*. Comparison of the odes with the lyrics in Latin, English and other languages. (Latin 21.1.)

Professor BURRAGE.

¹ On leave second semester.

31.1 ROMAN COMEDY.

The translation of the *Captivi* and *Trinummus* of Plautus, with rapid reading from the *Andria* of Terence. (Latin 21.1 or 21.2.)
Professor BURRAGE.

31.2 TACITUS.

The *Germania* and *Agricola*. Comparison of Tacitus with other writers of his time. A study of the Roman colonial system. The history of the later Empire; the influence of Rome on the northern tribes. Library reading. (Latin 21.1 or 21.2.)
Professor WHITE.

[32.1 ROMAN SATIRE.]

Selections from the *Satires* of Horace, Juvenal, and Persius and the *Epigrams* of Martial. A study of Roman society under the early Empire. (Latin 21.1 or 21.2.) (This course alternates with Latin 31.1.)

[32.2 LATIN LITERATURE AND SELECTIONS.]

A study of the development of Latin literature with representative selections in prose and verse for advanced students. (Latin 21.1 or 21.2.) (This course alternates with Latin 31.2.)

41.1 ADVANCED LATIN PROSE FOR TEACHERS.*

Latin writing, based chiefly on Cæsar's *Gallie War*. A systematic study of Latin syntax, vocabulary and idioms.
Professor DAME.

41.2 THE TEACHING OF PREPARATORY LATIN.*

A study of methods and authors used, and teaching problems; the necessity of making Latin a live language; quality *versus* quantity; literary appreciation.
Professor WHITE.

MATHEMATICS

Professor PERKINS

Professor BARNUM

Assistant Professor BOWKER

Courses required for Comprehensive Examination (beginning with the class of 1936): 11.; 21.; 31.; 41.; and one other course in the department; Physics 21.1, .2.

Courses recommended: Other courses to be selected with the advice of the department.

11. ELEMENTARY MATHEMATICAL ANALYSIS.

Designed to give a comprehensive survey of the most useful parts of elementary mathematical theory carefully correlated and given unity around the central idea of the universality of the cause and effect relation. Practice is given in such parts of the elements of

* Open to Graduate Students.

DEPARTMENTS AND COURSES OF INSTRUCTION 69

trigonometry, analytic geometry, and the calculus as are essential for the solution of simple problems and the reading of any texts dealing with elementary physics, chemistry, economics or any of the other sciences.

(11. is required of all B.S. Freshmen and elective for A.B. students of all classes.)

Professor BARNUM and Assistant Professor BOWKER.

21. MATHEMATICAL ANALYSIS.

The logical continuation of Mathematics 11. offering some opportunity for review of the theory covered in the Freshman year. (Mathematics 11.)

Professor PERKINS.

22. MATHEMATICS OF FINANCE.

For those whose chief interest lies in other fields than mathematics but who still wish to satisfy the requirement in mathematics, this, as a Sophomore course, offers a good training in finance. Such topics as the mathematics of investment, of amortization of debts, of depreciation of annuities and of insurance are treated. Other students are advised to defer this course until a later year. (Mathematics 11. and permission.)

Professor PERKINS.

[23. SPHERICAL TRIGONOMETRY AND INTRODUCTION TO ANALYTIC GEOMETRY.]

For those whose chief interest lies in other fields than mathematics but who desire preparation for the study of Astronomy. (Mathematics 11.)

31. APPLIED MATHEMATICAL ANALYSIS.

A continuation of Mathematics 21. It should be elected by students whose chief interest is in mathematics and by those who plan to continue along the main line of development of the subject. (Mathematics 21.)

Assistant Professor BOWKER.

[32. PLANE AND SOLID ANALYTIC GEOMETRY.]

For students whose interests are in the geometrical and interpretive field of mathematics this course offers a good introduction to modern methods in geometrical analysis. (Mathematics 21.)

41. DIFFERENTIAL EQUATIONS.*

A continuation of Mathematics 31., but the content will be varied somewhat from year to year to meet the needs of those electing the course. (Mathematics 31.)

Professor BARNUM.

* Open to Graduate Students.

42. TEACHING OF PREPARATORY MATHEMATICS.

Essentially a senior course for prospective teachers of high school mathematics.

Consideration of the place and the use of arithmetic, algebra, geometry and trigonometry and the standards to be set in the teaching of these subjects; the collection and arrangement of historical and biographical material to form a background that shall awaken interest in the subject-matter; practice in the selection of texts and the laying out of courses; a study of fundamental principles and discussions of methods of presentation and explanation. (Mathematics 11. and 21. or 22.)

Assistant Professor BOWKER.

[44. MODERN HIGHER GEOMETRY.*]

Subjects selected from Graustein's text. (Mathematics 31.)

45. STATISTICAL METHODS.*

(Mathematics 11. and Mathematics 21. or Mathematics 22.)

Assistant Professor BOWKER.

MUSIC

Professor HATHAWAY

Mr. LARSEN

Assistant Professor FISH

MRS. SEAVER

Courses required for Comprehensive Examination: 11.2; 21.1, .2; 31.; 32.; 42.

The aim of this department is to cultivate a knowledge of music by offering courses planned along lines of general academic training and to develop students who shall learn to understand and appreciate music in the same degree that they understand and appreciate other arts.

Emphasis is also laid upon the technical side and courses are offered in pianoforte, organ, singing, violin and violoncello.

While it is not planned to develop professional musicians, students who give evidence of special talent may continue their work with thoroughness during their college course.

11.1 MUSICAL THEORY.

Elementary work in musical notation. General musical definitions. Metre and rhythm. Keys and scales. Major and minor signatures. Sight singing and dictation. Rhythmic patterns. Melody writing and melody construction. Text. "Ear Training and Sight Singing." Wedge.

Assistant Professor FISH.

11.2 ELEMENTARY HARMONY.

The first steps in the study of musical composition and of the analysis of musical works. The course embraces triads and their progres-

* Open to Graduate Students.

DEPARTMENTS AND COURSES OF INSTRUCTION 71

sions, and modulation, also the invention and harmonization of melodies and choral writing in four parts. Keyboard work. (11.1 and sufficient piano technic to play simple hymns.) Text. "Applied Harmony." Wedge.

Assistant Professor FISH.

21.1, .2 ADVANCED HARMONY.

A continuation of Music 11.1, .2. The course includes a study of the chief chromatic chords and their use in modern composition. Suspensions, ornamentation, auxiliary and changing notes, melodic figuration and pedal point. (Music 11.1, .2.)

Assistant Professor FISH.

22. PIANOFORTE MUSIC, ITS COMPOSERS, CHARACTERISTICS AND INTERPRETATION.

A course designed for students interested in the study of the pianoforte playing. Its aim is to furnish as a background knowledge of the development of music written for the piano and how it has arrived at its present stage. The piano styles of the different composers are studied, being determined, as they are, by the time in which they lived and the status of the instruments of the time. Characteristics which differentiate the music of one composer from that of another are emphasized. Two hours lecture and recitation; one hour practical work at the piano.

Professor HATHAWAY.

31. COUNTERPOINT.

Counterpoint in two, three and four parts in the various species. Original work in the smaller contrapuntal forms. (Music 21.1 and 21.2.)

Professor HATHAWAY.

32. MUSICAL UNDERSTANDING.

This course is designed to develop, without going too deeply into technicalities, the ability to listen to good music. It aims to present in untechnical language an account of the evolution of musical forms. Selections are played and illustrated at the piano and by phonograph records. No knowledge of music is necessary for entrance to this course.

The following subjects are included in the course: Polyphonic forms, Absolute and Descriptive Music, Folk Songs and Art Songs. The Orchestra, Popular Music. The music of the Different Nations. Romanticism in Music. The Modern School. Mid-year examination.

Professor HATHAWAY.

33. PUBLIC SCHOOL MUSIC.

The course consists in the preparation for the teaching and supervision of music in the public schools. The work of each grade is outlined and problems discussed. Testing and classifying of voices, and organization and management of choruses, glee clubs and orchestras

in high schools are taken up as well as some practice in conducting in the local schools.

Mrs. SEAVER.

42. MUSICAL HISTORY AND ADVANCED APPRECIATION.*

A general course in the evolution of musical development from earliest times up to the present and of the masterpieces produced during that period. Lectures, required reading and discussion. Mid-year examination.

Professor HATHAWAY.

43. THE ELEMENTS OF COMPOSITION.

A course in musical composition open to students who are interested in and possess the technical knowledge and ability represented by previous courses in the department.

It includes the study of form in music and its construction from the musical motive, phrase and period to the dance and song forms, also detailed analysis of the chord structures of classic and modern works. Original work required. (Music 31.)

Professor HATHAWAY.

PRACTICAL COURSES.

M-1. INDIVIDUAL INSTRUCTION IN THE STUDY OF THE PIANOFORTE.

Professor HATHAWAY.

M-2. PRIVATE INSTRUCTION IN ORGAN PLAYING.

Assistant Professor FISH.

M-3. PRIVATE LESSONS IN VOICE PLACING, INTERPRETATION AND REPERTOIRE.

Assistant Professor FISH.

M-4. INSTRUCTION IN VIOLIN AND VIOLONCELLO.

Mr. LARSEN.

Credits: Each practical course, if preceded or accompanied by a theoretical course, will receive one point credit each semester if the student's music grades in the preceding year averaged 75 per cent or over. No credit will be given for elementary work in any of the practical courses. It is necessary to have as many theoretical as practical courses if credit for the latter is given.

Orchestral Playing: Open to students who are proficient in the use of some instrument of the modern orchestra. Rehearsals are held weekly.

Mr. LARSEN.

Honors in Music: Honors in Music are given when, in addition to the requirements in theoretical courses, a student has given a public recital of classical and modern works.

* Open to Graduate Students.

DEPARTMENTS AND COURSES OF INSTRUCTION 73

The College Choir: The College Choir holds two rehearsals weekly and sings at the chapel service each day and at the Sunday vesper service. Opportunity is given to study the works of the best composers of sacred music.

Glee Club: Drill in ensemble singing, study of the works of excellent composers as well as more popular songs for Glee Club programs. Weekly rehearsals.

Assistant Professor FISH.

Charges for Practical Courses in Music

(Payable in advance. No rebate will be allowed for lessons missed except in cases of continued illness.)

Organ and Piano instruction—per semester	
1 lesson weekly	\$32.00
2 lessons weekly	64.00
Use of piano—1 hour daily—per semester	8.00
Use of organ—1 hour daily—per semester	12.00
Use of room for violin practice 1 hour daily—per semester	4.00
Violin instruction—per semester	
1 lesson weekly	32.00
2 lessons weekly	64.00
Vocal instruction—per semester	
1 lesson weekly	32.00
2 lessons weekly	64.00

Students will be accepted at any time; tuition from the beginning of the semester to the time of registration being deducted.

PHILOSOPHY

Professor HARRINGTON

21.1 INTRODUCTION TO PHILOSOPHY.

A natural approach to the problems of Philosophy through a discussion of the common facts of human experience and man's efforts to understand; then a general course dealing with these problems one after another.

22.2 INTRODUCTORY LOGIC.

A study of the principles of sound reasoning, with concrete illustrations at every point and practice in the classroom. (Phil. 21.1 or Ed. 21.1.)

32. STUDIES IN ETHICS.

A general survey of the moral life of the race; then an inquiry as to the basis of ethical values and especially their relation to self-realization; and then the principles and ideals of social ethics. (Phil. 21.1 or permission.)

41. HISTORY OF PHILOSOPHY.*

A survey of the work of the great thinkers and a tracing of the main currents of philosophical thought from the beginning; then an inquiry into recent and contemporary Philosophy. (Phil. 32. or permission.)

42. CONSTRUCTIVE PHILOSOPHY.*

An effort to outline a world-view in harmony with the most recent science. The inquiry deals not only with the physical universe but also with society and with the distinctively human values. (Permission.)

Note: Special permission may be given, in individual cases, to students to take advanced courses in Philosophy, even if they have not had the prerequisites specified above, provided they have taken in other departments courses of equal grade and of such a nature as to have furnished the necessary preparation.

PHYSICAL EDUCATION

Associate Professor YOUNG

Miss ROSEVEAR

Courses required for Comprehensive Examination: Every course listed in the Department and also Biology 11., 21., 31.

Courses recommended: Chemistry 11.; Physics 21.; Drama 12. and 32.; Education and Psys. 21.1 and 22.2; Music 11.1 and 32.; Phil. 21.1; Soc'y 21.1.

Since one of the purposes of the required work in physical education is the acquirement of habitual good posture, the Department reserves the right to reassume control of any upper classman who, though she has satisfactorily completed her required work, shows herself in need of physical supervision.

15. PHYSICAL EDUCATION.

Fundamental skills in seasonal sports followed by game participation. Fundamental gymnastics. Hygiene. Required of Freshman women.

Associate Professor YOUNG and Miss ROSEVEAR.

25. PHYSICAL EDUCATION.

Natural rhythms and dances; national, character, and folk dancing; clogging and tap dancing. Home Hygiene and Care of the Sick. Required of Sophomore women.

Associate Professor YOUNG and Miss ROSEVEAR.

35.1 COACHING OF SPORTS.

The theory and practice of coaching team and individual sports: hockey, tennis, archery, volleyball and basketball. Juniors and Seniors.

Associate Professor YOUNG

35.2 PLAYGROUND SUPERVISION AND COMMUNITY RECREATION.

Factors in child development and their relation to adult personality. Play and leisure time activities adapted to age groups and interests.

*Open to Graduate Students.

DEPARTMENTS AND COURSES OF INSTRUCTION 75

Playground supervision and administration of community recreation.
Juniors and Seniors.
Associate Professor YOUNG.

36.2 COMMUNITY HYGIENE AND CHILD CARE.

(1) A general survey of the fundamental principles of sanitary science and disease prevention and their application to water supply, milk and general food supply, and the spread and control of infectious diseases.

(2) The care of the child from the period of infancy through the pre-school age. Child problems of behavior and management which relate to home influence or health habits. (Phys. Ed. 15.) Seniors and Juniors.

Miss ROSEVEAR.

45. METHODS OF TEACHING PHYSICAL EDUCATION.

Theory, practice and presentation of physical education material.
Seniors and Juniors.

Associate Professor YOUNG.

46. ORGANIZATION AND ADMINISTRATION OF PHYSICAL EDUCATION IN HIGH SCHOOLS AND COLLEGES.

Program content and arrangement. Physical and medical examinations. Body mechanics. Extra-curricular activities and supervision. (Phys. Ed. 45.)

Associate Professor YOUNG.

PHYSICS

Professor BRYANT

Mr. WISSLER

Courses required for Comprehensive Examination: 21.1, .2; 31.1; 32.1, .2; 33.1, .2; 41.1.

Students majoring in Physics must have Chemistry 11. and Mathematics 21.

21.1, .2 GENERAL PHYSICS.

An introduction to the fundamental principles of general physics. The first semester's work is prerequisite to the second.

Professor BRYANT.

[31.1 LIGHT.]

An advanced course for students who wish more knowledge of the subject than can be obtained from general physics. The laws of reflection and of refraction, with their application to optical instruments; the wave theory of light; the spectrum and its teachings; the phenomena of radiation, absorption, dispersion, interference, and diffraction are some of the topics considered. (Phys. 21., Math. 11.)

32.1 MODERN PHYSICS.

A survey of the recent discoveries in Physics and the theories based upon them. The electron, thermionics, photoelectric effect, X-rays, theory of spectra, atomic structure, radioactivity, geophysics, astrophysics, recent ideas in Physics are among the topics considered. (Phys. 21., Math. 21., and permission.)

Professor BRYANT.

32.2 ELECTRICITY AND MAGNETISM.

An advanced course covering more thoroughly many of the topics studied in the corresponding work in general physics, together with some additional topics, such as the discharge of electricity through gases, electrons, radio-activity, and wireless telegraphy. (Phys. 21.)

Professor BRYANT.

33.1 PHYSICAL MEASUREMENTS.

Elementary theory and practice of physical manipulation. Laboratory work in the measurements of length, mass, time, velocity, linear and angular acceleration; the verification of the laws of equilibrium of forces; the determination of coefficients of elasticity; the density of solids, liquids, and gases; experiments in sound. (Phys. 21.)

Laboratory fee, \$5.

Mr. WISSLER.

33.2 PHYSICAL MEASUREMENTS.

Measurements of thermal expansion, specific heat, latent heats of fusion and of evaporation. In electricity, fields of force, electric resistance, electro-motive forces, and strengths of current are measured. The laws of reflection and refraction of light waves and the formation of images by mirrors and lenses are studied, and indices of refraction and lengths of light waves are measured. (Phys. 33.1.)

Laboratory fee, \$5.

Mr. WISSLER.

41.1 ASTRONOMY.*

The celestial sphere; astronomical instruments; determination of latitude, longitude, and time; the earth as an astronomical body; the moon's motions and physical characteristics; the sun's physical characteristics; revelations of the spectroscope; eclipses; planets; comets; stars and nebulae. (Phys. 21.)

Professor BRYANT.

42.2 ANALYTICAL MECHANICS.*

A discussion of the statics and dynamics of a particle and of a rigid body. Composition and resolution of forces, vectors, center of gravity, work, energy, impulse, moment of inertia, static and kinetic friction. (Phys. 21., Math. 21.)

Professor BRYANT.

* Open to Graduate Students.

DEPARTMENTS AND COURSES OF INSTRUCTION 77

POLITICAL SCIENCE

Professor CORNWALL
Assistant Professor NEALLEY

11. THE GOVERNMENT OF THE UNITED STATES.

A general introductory course which deals with our national or federal government and our state governments, their basic theories, formation, structure, powers, and operation, and also with the origin, growth, organization, functions, principles, and programs. (No prerequisites.) Seniors and Juniors by permission. Primarily for Sophomores and Freshmen.

Assistant Professor NEALLEY.

21. COUNTY AND MUNICIPAL GOVERNMENT AND ADMINISTRATION IN UNITED STATES.

The purpose of this course is to acquaint the student with the problems of county and municipal government and administration in the United States and, with the problems of certain other local governmental units. (Pol. Sc. 11. or permission.) Seniors, Juniors and Sophomores.

Assistant Professor NEALLEY.

22. COMPARATIVE GOVERNMENT.

A description and analysis of the government of England followed by similar treatment of the governments of several European states, giving careful consideration to the theory and practice of parliamentary government as compared with our own system. Special attention being given to contemporary movements and developments. (Pol. Sc. 11. or permission.) Seniors, Juniors and Sophomores.

Assistant Professor NEALLEY.

31. BUSINESS LAW.

A practical course in everyday and legal business relationships. (No prerequisites.) Seniors and Juniors by permission.
Professor CORNWALL.

[32. EUROPEAN AND AMERICAN POLITICAL THEORIES.]

41. THE UNITED STATES CONSTITUTION AND CONSTITUTIONAL LAW.*

A detailed study will be made in this course of the United States Constitution and its growth and development; with special attention to its interpretation by the Supreme Court. The study will be made chiefly by the case method. (Pol. Sc. 11.) Seniors and Juniors by permission.

Professor CORNWALL.

[42. INTERNATIONAL GOVERNMENT.*]

* Open to Graduate Students.

43. POLITICAL AND LEGISLATIVE PROBLEMS OF THE UNITED STATES.*
A study of political forces and movements in the United States. An analysis of legislation and a study of the actual making of laws, the political aspect and the actual drafting of laws. (Pol. Sc. 11.) Seniors and Juniors. Sophomores by permission.
Professor CORNWALL.

SOCIOLOGY

Associate Professor SHOLES
Mr. HEINRICH

Courses required for Comprehensive Examination: 21.1, .2; 32. or 41.1, .2, or 45.2; 42.; Education and Psychology 21.1; 22.2; History 32. or 45.1.

11. MAN AND HIS WORLD.

An orientation and correlation course, the aim of which is to acquaint the student with the life and thought of the present day world in their broader aspects. One semester will be spent in familiarizing the Freshman with the most significant social and political experiments in the post-war period, showing their economic and historical backgrounds and their bearing on the life of the citizen of today. The text book is the *New York Times* and the latest books on these subjects.

The other semester will be spent in the field of the social and exact sciences in a survey of the material and principles of biology, chemistry, astronomy, physics, geology, psychology and sociology, unifying them into an organic whole without emphasis upon the conventional lines which demarcate them. The text-book is Bossard's "Man and His World." Required of all Freshmen.

A book fee of \$5.00 per semester is made for text and source material.

Associate Professor SHOLES and Mr. HEINRICH.

21.1 THE PRINCIPLES OF SOCIETY.

An introductory course covering the general field of sociology. Human origins. The factors of social life. Social institutions. Evolution of material culture. The family. The evolution of social organization and integration. Juniors, Sophomores. (Seniors by permission.)

Book and trip fee, \$5.00.

Associate Professor SHOLES.

21.2 CONTEMPORARY SOCIAL PROBLEMS.

A continuation of the study of society by a survey of its problems. Geographic, economic, psychological. Race and nativity. Domestic institution. General Social Control. Juniors, Sophomores. (Seniors by permission.)

Book and trip fee, \$5.00.

Associate Professor SHOLES.

* Open to Graduate Students.

DEPARTMENTS AND COURSES OF INSTRUCTION 79

[31.1 RURAL SOCIETY.]

A study of the basic society that has grown up on the land and in the small towns. The community. The neighborhood. The family. Institutions. Social and economic problems peculiar to the rural groups. Seniors, Juniors. (Sophomores by permission.)

Book and trip fee, \$5.00.

[31.2 URBAN SOCIETY.]

A study of the society that has developed in the urban centers. The neighborhood. The ethnic groups. Politics. Religion. Education. Recreation. Welfare. The changing economic and social conditions peculiar to the urban group. Seniors, Juniors. (Sophomores by permission.)

Book and trip fee, \$5.00.

[32.1 POPULATION.]

Trends in American groups. Measurable characteristics of physical development, health and cultural-intellectual development. The influence of differential reproduction on the group and the causes and control of population trends. Seniors, Juniors. (Sophomores by permission.)

Book and trip fee, \$5.00.

41.1 THE FAMILY.

A scientific, candid and dispassionate study of personality in relation to the modern family. Practical problems of the individual. The normal family and the values and processes which permit it to function. Seniors, Juniors. (Sophomores by permission.)

Book and trip fee, \$5.00.

Associate Professor SHOLES.

41.2 CRIMINOLOGY AND PENOLOGY.

A study of causes and consequences of crime from its psychological and environmental factors. Institutional treatment. Obtaining evidence. Court procedure. Prevention. Seniors, Juniors. (Sophomores by permission.)

Book and trip fee, \$5.00.

Associate Professor SHOLES.

42. SOCIAL WELFARE.

A study of the history, concepts, methods and scope of social welfare work. Primarily for those who will enter the field of social work. Seniors. (Juniors by permission.)

Book and trip fee, \$5.00.

Associate Professor SHOLES.

45.2 SOCIAL EFFICIENCY.

A comprehensive course for Sociology majors. Social Theory, contemporary social movements and social progress. Seniors.

Book and trip fee, \$5.00.

Associate Professor SHOLES.

SPANISH

Professor CENTENO
Assistant Professor MARTIN

Courses required for Comprehensive Examination: 31.; 40. (when given); 41.;
42.; 43.; 44.

11. ELEMENTARY SPANISH.

Reading of simple Spanish; oral practice based on the reading text; grammar taught inductively; careful vocabulary building. Spanish is used as the principal means of communication. This course is designed to equip the student with a solid foundation for the more advanced study of spoken and literary Spanish.

Professor CENTENO and Assistant Professor MARTIN.

21. SECOND YEAR SPANISH.

A continuation of oral practice with a review and more extended treatment of grammar. The subject matter of the texts consists of realia of the Spanish-speaking countries. Outside reading of Spanish newspapers and magazines. Conducted in Spanish. (Spanish 11. or two years of high school Spanish.)

Assistant Professor MARTIN.

31.1 CONVERSATIONAL SPANISH.

A review of grammar, oral practice based on idiomatic texts and selections of the best Spanish authors, and exercises in free composition. The purpose of this course is to give the student a good command of spoken and written Spanish. Conducted in Spanish. (Spanish 21.)

Assistant Professor MARTIN.

31.2 SPANISH COMPOSITION.

A practical course in the fundamentals of composition; exercises in syntax, construction of sentences, paraphrasing from Spanish texts, study of synonyms and antonyms, and free composition. (Spanish 31.1.)

Professor CENTENO.

[40. SURVEY OF SPANISH LITERATURE.]

A general survey course of Spanish literature from the Middle Ages to the end of the Nineteenth Century, including representative novels, plays, and poetry. Lectures and reports by the students on assigned reading. Conducted in Spanish. (Spanish 31.1, 31.2.)

41.1 LITERATURE OF THE GOLDEN AGE.

An intensive study of the great Classical period. Reading of the chief authors and representative works. Lectures, collateral reading, class discussions, written and oral reports. Conducted in Spanish. (Spanish 31.1 and 31.2.)

Professor CENTENO.

DEPARTMENTS AND COURSES OF INSTRUCTION 81

41.2 CONTEMPORARY SPANISH THEATRE.

A survey of the principal Spanish playwrights of today, with a special study of their representative works. Oral discussions and written composition. Conducted in Spanish. (Spanish 31.1.)
Assistant Professor MARTIN.

42.1 THE MODERN SPANISH NOVEL.

A study of modern Spanish novelists with particular emphasis on the XIX Century, with a special study of their representative works. Oral discussions and written composition. Conducted in Spanish. (Spanish 31.1.)

Professor CENTENO.

42.2 CONTEMPORARY SPANISH NOVEL.

A study of contemporary Spanish novelists with particular emphasis on the relation of literature to the social and intellectual life of present-day Spain. Oral discussions and written composition. Conducted in Spanish. (Spanish 31.1.)

Professor CENTENO.

[43. SPANISH CIVILIZATION.]

The aim of this course is to equip the student with a good understanding of the Spanish character and of Spain's contribution to the world's civilization. A general study of the geographical, ethnical, historical, political, literary, and artistic evolution of Spain, together with a study of its most important traditions and customs, will constitute the subject matter of this course.

[44. SURVEY COMPREHENSIVE COURSE.]

For Seniors majoring in the department.

45. SPECIAL COURSES.

Open to properly qualified students. Recommended for candidates for the Master's Degree and for Seniors seeking honors in Spanish. (Span. 31.1, 2.) (Permission.)

Professor CENTENO and Assistant Professor MARTIN.

GRADUATE WORK

MIDDLEBURY COLLEGE provides courses in many departments for students desiring to pursue a Master's degree. Correspondence should be directed to Prof. Harry G. Owen, Chairman of the Committee on Graduate Work.

The degrees of Master of Arts and of Master of Science may be attained by graduate work completed during the regular college year, or at the Summer Sessions, in accordance with the following regulations:

1. The candidate must have a baccalaureate degree from this College, or from another institution whose course of study and requirements for graduation are approved by the Committee on Graduate Work.

2. Candidates should register during the first week of either semester, or during the first week of the Summer Session. A renewal of all existing registrations must be made at the beginning of each college year.

3. To obtain the degree of Master of Arts, or Master of Science, one full year in residence and the completion of work equivalent to thirty semester hours will be necessary. This requirement of residence may also be met by attendance at the Summer Sessions. Not more than eight semester hours may be secured at a single Summer Session; and not more than six semester hours in a European Section of the Summer Session.

4. To obtain either of the advanced degrees two-thirds of the required work must be completed at Middlebury College.

5. Candidates for the Master's degree shall present to the Committee on Graduate Work for its approval a statement of the intended course of study, with the written approval of the head of the department in which the major work is to be undertaken.

6. The major work of the candidate must be undertaken in some department in which there have been completed undergraduate courses of study of such advanced grade as to satisfy the department of the student's fitness to enter upon graduate work.

7. One-half of the required work or, at the discretion of the head of the department, two-thirds, must consist of graduate studies or investigations prescribed by the department in which the major work is undertaken; the remaining part may be pursued in courses of graduate grade recommended by the department. A minimum grade of 80 percent shall be maintained in all the courses counting towards the degree.

8. Graduates of Middlebury College who have to their credit graduate courses taken in undergraduate years and not counted toward a baccalaureate degree may, subject to the approval of the head of the department concerned, count fifteen semester hours toward an ad-

vanced degree, provided these courses are in subjects related to the department in which major work for the advanced degree is to be done. Subject to the same requirements, graduates of other recognized colleges may count towards the Middlebury degree similar graduate courses completed in undergraduate years and not counted towards the baccalaureate degree.

9. Graduate work done in other institutions, and presented for transfer credit towards the Middlebury Master's degree, must be acceptable towards the same degree at the institution where the work was done.

10. No courses counted in conferring a first degree at Middlebury College, or elsewhere, shall be accepted for a second degree.

11. A Senior who has satisfied all the requirements for the baccalaureate degree at the end of the first semester may continue his study towards the Master's degree during the second semester. Such a student shall be considered a graduate student and his program of study must conform to the regulations governing graduate work.

12. The degree shall be conferred either at the Commencement or at the Summer Session following the completion of the work.

13. The regular tuition fees for undergraduate work are charged. An additional fee of \$15 is required for the final examination and the diploma.

THE DOCTORATE IN MODERN LANGUAGES

BESIDES the Master's degree, the Middlebury Summer Schools of French, Spanish, and German now offer an advanced degree: The Doctorate in Modern Languages (D.M.L.), full details concerning which may be found in the Summer School bulletins of the Schools concerned. The principal requirements are:

1. The Master's degree with a language major from some recognized university.

2. Residence at the Summer Sessions of Middlebury College equivalent to five-year courses of thirty credits. This will ordinarily require four summers' residence at Middlebury, but the basis of the requirement is chiefly the fulfillment of a program, not merely a given total of points. The student will be required to complete the main lines or groups of our curriculum—Stylistics, Phonetics, Realia, Teaching Methods, Literature, and Philology. A minimum of twenty credits over and above the credits necessary for the M.A. must be secured in residence at Middlebury; a maximum of ten credits may be transferred.

3. Two semesters' residence in the foreign country of the major language. This time should be spent in study in approved courses amounting to or equivalent to twelve hours a week (or 24 semester hours) of class exercises. The work must be done according to a

plan previously approved by the Dean of the respective School, and the final results must also be approved by him. Work done in a foreign country prior to the student's enrollment as a candidate for the D.M.L. cannot be accepted. Summer Sessions may not be substituted for the requirement of two semesters' foreign residence.

4. A major language (French, Spanish or German).

a. A thorough knowledge of and the ability to use the spoken and written language, tested by an oral and written examination.

b. A thorough study of and training in phonetics. Candidates will be required to do at least one summer's work in the phonetics laboratory, and to write a report on their research.

c. A scientific study of modern methods of teaching foreign languages. Note: Besides attendance in the courses of methods at Middlebury, candidates will be required to teach at least one year under supervision. Statements will be requested from superintendents of schools, heads of departments, and others as to the success of the candidate's teaching and professional ability. No student will be granted the D.M.L. who cannot be unqualifiedly recommended as an experienced and successful teacher of the language.

5. A final oral examination conducted entirely in the major language, before a board including native members of the faculty; this examination to cover all elements of the candidate's preparation—phonetics, pedagogy, literature, etc. (This training should include a certain amount of philological preparation—Old French or Old Spanish, Phonology, Morphology, etc., but these subjects should be studied not *in se* and *per se*, but always with the idea of the help they may afford to the knowledge and teaching of the modern languages.)

6. A minor language (preferably another Romance Language). This will be tested by an oral and written examination. The candidate's knowledge of the language should be sufficient at least to teach successfully the elementary courses in the language. In addition, a reading knowledge of German will be required, as a guarantee of the ability to use German texts or editions.

7. A dissertation written in the major language. This dissertation, which should approximate 35,000 words, is intended to prove a thorough and understanding study of some subject, literary, phonetic, or pedagogical, which is worth a careful study. It must embody considerable original work and reflection must show a mastery of the field, clearness of thought, and must be written in correct and easy style. The subject must be chosen and the preparation continued under the guidance of some member of the Middlebury faculty.

SCHOLARSHIPS

THE College has a number of student benefits, many of them given in early years at great self-sacrifice on the part of the donors. The income of these funds is expended exclusively in payment of the tuition, in part, of needy and deserving students of good deportment and application. When the number of students was much smaller, these funds allowed a somewhat more liberal bestowment of beneficiary aid than is now possible. *It is not expected that those whose circumstances admit the full payment of college bills will apply for college assistance.* It is earnestly desired, however, that, where need requires, those who might not otherwise be able to receive a college education will apply for aid from this source. The College has a long record of special encouragement to those who are obliged to secure an education largely through their own efforts. Correspondence concerning scholarships should be directed to the Dean of the Women's College, who will furnish blanks for applications.

Scholarships may be forfeited at any time during the course through negligence or misconduct. If a student fails in any semester to have a passing grade in four courses of which three shall be at least 70 percent grade, any scholarship allowance for that semester is thereby forfeited.

If a student who has had the privilege of a scholarship leaves Middlebury to transfer to another institution, she will be required to pay the full amount of back tuition.

Among the student benefits dispensed by the College is the income from the following funds:

THE EMMA WILLARD SCHOLARSHIP, \$2,000, established in 1895 by the Emma Willard Association, for the benefit of deserving young women. (*The holder of this scholarship receives supplementary scholarship bringing the total up to \$300, or remission of tuition. For seniors only.*)

THE JOSEPH BATTELL SCHOLARSHIPS, \$500 annually, for young women of Addison County.

THE CHARLES A. FIELD SCHOLARSHIP, \$300, given by the village of Proctor, Vt., "as a memorial of regard for Fletcher Dutton Proctor and of gratitude to him, and for courtesies received at the hands of other residents of said village."

THE JOHN A. HOWE SCHOLARSHIPS, \$3,000, bequeathed by John A. Howe, Esq., class of 1853; the income first available for his descendants, and then under certain conditions for students from Poultney.

THE WINDHAM COUNTY CONGREGATIONAL CONFERENCE SCHOLARSHIP, \$600.

THE ASA WHEELOCK SCHOLARSHIPS FUND, \$5,000, established under the will of Charles B. R. Hazeltine of Arlington, Mass., the income first available for students from the town of Wardsboro, Vt., and then from other small country towns in the State.

THE JONATHAN COLEMAN SOUTHMAYD SCHOLARSHIP FUND, \$5,500, established by Hon. Redfield Proctor, in 1922, its income first available for students (men or women) from Proctor.

THE AGNES WARNER SUNDERLAND FUND, \$3,000, established by Edwin S. S. Sunderland, Esq., class of 1911, the income from which is first available for the assistance of students (men or women) from Cornwall.

THE CHARLES B. R. HAZELTINE FUND, \$14,043, established in 1923 "for assisting worthy students."

THE JOHN W. ROWELL FUND, \$2,000, established by the late Chief Justice Rowell.

THE PRESIDENT'S PURSE, \$10,000, established by Mr. Charles M. Swift, the income to be disbursed at the discretion of the President.

THE DUTTON FELLOWSHIPS, established in 1926 by Hon. Redfield Proctor for five years, were continued in 1932 with revisions made by the original donor. The Fellowships now provide \$1,200 to \$1,500, according to the conditions of the time and the estimated requirements. In any given year they may be awarded to men or women as the Scholarship Committee may consider best, but over a period of years a majority of the recipients will be men. The Fellowships shall be used to defray, so far as possible, the expenses for one year of post-graduate study in some institution in Europe approved by the committee. The recipients shall have a definite program and be regularly enrolled in classes for at least a majority of their time in Europe. If, in the judgment of the committee, there should be only one desirable candidate, the second fellowship need not be awarded.

The basis for award is similar to that of the Rhodes Scholarships, high standing being considered in connection with College leadership and interest in out-door sports and life. It is understood that this year of graduate work shall not be toward a professional career, such as Law, Medicine or Theology, nor continued at Middlebury. The judges consist of one member of the trustees chosen by the trustees, one member of the faculty chosen by the faculty, and the President of the College.

THE WILLIAM W. GAY FUND, \$5,000, established in 1929 by the gift of Mrs. Frederic F. Van de Water, Jr., in memory of her father, William W. Gay, class of 1876.

THE HERBERT K. TWITCHELL FUND, \$2,000, established in 1929 by a bequest received under the will of Mr. Twitchell for students from Vermont, preferably Addison County.

THE CORNELIA W. BAILEY FUND, \$33,500, established in 1929 under her will for students of the Protestant faith, residing in Vermont.

GEORGE W. ELLIS FELLOWSHIPS

Two fellowships, each with an annual value of \$1,600, were established at Columbia University in 1931, under a provision in the will of George W. Ellis, to be open primarily to residents of Vermont or to the graduates of Middlebury, Norwich, and the University of Vermont.

The fellowships are awarded to qualified men or women for pursuing advanced or graduate study in any of the faculties or schools at Columbia. Information on this fellowship may be secured from Prof. H. G. Owen.

STATE SCHOLARSHIPS

THE College receives from the State of Vermont an annual appropriation of \$7,200 for the payment to the amount of \$120 annually of the tuition and incidental college charges of sixty students, two being appointed each year by each Senator in the General Assembly, from his respective county, provided any suitable candidate should apply therefor; otherwise from any county in the State.

Any Vermont student desiring to take advantage of a State scholarship should apply to one of the Senators of the county in which she resides, and the Senator may thereupon give her a certificate of appointment. Should the Senators in the applicant's county already have made appointments, the student should immediately apply to the Dean, as there may be a vacancy from some other county of which the applicant may avail herself. Incoming Freshmen should make such application to the Director of Admissions.

The same regulations as to forfeiture through misconduct, poor scholarship, or unsatisfactory attendance apply to State scholarships as to student benefits owned by the College.

MEMORIAL LOAN FUNDS

MARTHA JEWETT NASH STUDENT LOAN FUND, \$3,000, received in 1923 from a friend, "The principal to be safely invested, the income and accretions to be loaned, under certain conditions, to women students of the college."

PRIZES

THE DEACON BOARDMAN PEACE PRIZE. Established in memory of Samuel Ward Boardman (1789-1870). An annual prize of \$20 to the member of the Junior class submitting the best essay in favor of peace, and in opposition to war as a method for settling international differences. The essay must be creditable as a literary composition and consist of at least 2,000 words.

THE KELLOGG LATIN-ENGLISH PRIZE. Established by gift of Prof. Brainerd Kellogg, LL.D., Litt.D., of the class of 1858, Trustee, "to encourage Latin and English." Twenty dollars are awarded annually to the two best examination papers on Horace.

THE MORTAR BOARD CUP. Presented annually to that sophomore woman who in the opinion of the Chapter has shown the greatest interest in College by participation in extra-curricular activities and by attainment of high scholarship.

THE WOOLSEY PRIZE, established by the late Col. Theodore S. Woolsey, Jr., B.A., M.F., 1933. Two twenty-five dollar prizes will be awarded to the two undergraduates writing the best examination in Bible.

THE OPTIMA PRIZE. In memory of Henry Hobart Vail, for many years a trustee of the College, and in appreciation of the benefits derived by their daughter, Catherine, during her years at Middlebury, Mr. and Mrs. Roger S. Baldwin have established a permanent foundation of \$6,000, the income from which will provide a \$220 award to be known as the Optima Prize and given yearly to the Junior in the Women's College who, in the judgment of her class, is most typical of Middlebury. Selection for the award will be based on scholarship, character, and personality, and the junior women will have the deciding vote as to which one of their classmates is worthy of the prize. The award is made each spring and became operative with the class of 1929, of which Catherine Baldwin, now Mrs. Roger Keeny, of Grand Rapids, Michigan, was for two years a member. An additional fund of \$1,000 was also given for the purpose of supplying sufficient income to cover the cost yearly of a Gold Pin to be given the winner of the Optima Prize.

THE MARY DUNNING THWING PRIZE. Established by President Charles F. Thwing of Western Reserve University in memory of his wife, Mary Dunning Thwing. The fund of \$1,500 provides an income to be used as a prize to the student in the Women's College, who in the last two years of her course has done the best work in written English, prose or poetry.

THE ASSOCIATED ALUMNI

ESTABLISHED in 1824, the Associated Alumni has had a continuous existence of over a century.

Where in the past this organization has played only a social part, in striving to keep the graduates of the College interested in each other and in the College itself, its aims now tend toward a more active part in the life of the College. Consequently this Association purposes not only to bind its members in closer bonds of loyalty and affection, but to be of material assistance in the forwarding of the plans and projects of the administration.

The business of the Association is conducted through the office of the Secretary, who is also Director of Admissions and Personnel. Addresses of graduates and former students and biographical information regarding them are filed in that office and are available upon request.

The division of Districts is as follows:

Region No. 1

A. Middlebury District—Northeastern New York State, Vermont (except the southernmost portion), and northern New Hampshire. District Center, Middlebury.

B. Boston District—Maine, southeastern New Hampshire, eastern Massachusetts and Rhode Island. District Center, Boston.

C. Springfield District—Southwestern New Hampshire, southeastern Vermont, the balance of Massachusetts, and that section of Connecticut, including Hartford, which is nearer to Springfield than to New Haven. District Center, Springfield.

Region No. 2

A. New Haven District—Including the balance of Connecticut. District Center, New Haven.

B. Albany District—Eastern New York State, southwestern Vermont, and a small part of western Massachusetts. District Center, Albany.

C. New York City District—New York City, New Jersey, parts of New York State contiguous and a small part of Connecticut. District Center, New York City.

Region No. 3

A. Buffalo District—Remainder of New York State, Ohio. District Center, Buffalo.

B. Washington District—Pennsylvania, Delaware, and Southern States to the Mississippi. District Center, Washington.

C. Chicago (Western) District—Remainder of the United States and all foreign countries. District Center, Chicago.

The officers of the Associated Alumni for the year 1935-36 are:

National President—E. S. S. SUNDERLAND, '11, New York, N. Y.

Term: 1 year

District Presidents:

Region I. Term: 1 year

Middlebury District: D. S. Atwood, '13, St. Johnsbury, Vt.

Boston District: A. W. Furber, '20, Boston, Mass.

Springfield District: P. E. Fellows, '20, Hartford, Conn.

Region II. Term: 3 years

New Haven District: R. H. Walch, '13, Waterbury, Conn.

Albany District: P. E. Brewer, '31, Schenectady, N. Y.

New York City District: J. P. Kasper, '20, New York City

Region III. Term: 2 years

Buffalo District: T. H. Noonan, '91, Buffalo, N. Y.

Washington District: R. L. DeGroff, '25, Baltimore, Md.

Chicago (Western) District: W. L. Barnum, '07, Evanston, Ill.

National Secretary—Edgar J. Wiley, '13, Middlebury, Vt.
Term: 1 year*Alumni Trustees:*

Region I. Term: 1 year

Homer L. Skeels, '98, Montpelier, Vt.

Region II. Term: 5 years

Ralph E. Sincerbox, '20, New York City

Region III. Term: 3 years

Samuel B. Pettengill, '08, South Bend, Ind.

*Alumni Trustees-at-Large:*J. Earle Parker, '01 (4 years), Boston, Mass.
Ellsworth C. Lawrence, '01 (2 years) Malone, N. Y.

ALUMNI AND ALUMNAE ASSOCIATIONS

THE officers of the various Alumni and Alumnae Associations, as reported for the year 1935-36 are as follows:

The New York Association

President, J. P. Kasper, '20; Toastmaster, E. W. Willcox, '04;

Executive Committee, W. R. Wells, '30; W. Whitney, '27; S. P.

Davis, '21; R. R. Herrick, '30.

The Boston Association

President, Alan W. Furber, '20; Vice-President, Mrs. C. H. Paulsen, '18.

The Alumnae Association

President, Mrs. Gladys Thompson Longwell, '23; Vice-President, Miss Mildred T. Ross, '29; Secretary-Treasurer, Miss Frances H. Warner, '05; Executive Committee, Dr. Estelle Foote, '20, Mrs. Maude Smith Goodring, '03.

The Worcester County (Mass.) Alumnae Club

President, Miss Marion G. Cruikshank, '30; Vice-President, Mrs. Pauline Cross Whitney, '27; Secretary, Miss Marie O. Comtois, '30; Treasurer, Miss Eunice W. Smith, '11; Auditor, Miss Doris Ashworth, '22.

The Connecticut Alumni Association

President, R. H. Walch, '13; Secretary and Treasurer, Helen C. Prageman, '23.

The Hartford Alumnae Club

President, Miss Evelyn B. Ryle, '23; Vice-President, Mrs. Sylvia Westin Wurts, '29; Secretary, Miss Elsa M. Smith, '32; Treasurer, Miss Clara E. Park, '26; Member-at-Large, Miss Margery Burditt, ex-'11.

The Chicago Association

President, W. L. Barnum, '07; Vice-President, Mrs. Walter Fuller, '01; Secretary and Treasurer, Mrs. Gwendoline Morris Barnes, '10.

The Ohio Association

Executive Committee, J. S. Jackson, '26, Chairman.

The Washington, D. C., Association

President, R. L. DeGross, '25; Vice-President, Mrs. Martha E. M. Miller, '10.

The Buffalo Association

President, H. O. Thayer, '12; Secretary and Treasurer, Linwood B. Law, '21.

The Albany Club

President, E. C. Cole, '15; Vice-President, Miss Edith Tallmadge, '21; Secretary and Treasurer, P. E. Brewer, '31.

The Philadelphia Association

President, Walbridge B. Fullington, '20; Secretary and Treasurer, William H. Lawton, '23.

The New York Alumnae Association

President, Mrs. Edith Ranquist Emory, '25; Vice-President, Mrs. Vie Dole Elberth, '23; Secretary, Miss Dorothea E. Higgins, '30; Treasurer, Miss Wilhelmina Hayes, '30.

The California Association

President, R. A. Furbush, '28; Secretary, Mrs. Winifred Jeffords Waldo, '17.

The Utica Association

President, M. G. Hubbard, '13; Vice-President, J. A. Storm, '32; Secretary, J. M. Bishop, '22.

The Detroit Association

President, J. A. Hunter, '24; Secretary, M. W. McCutcheon, '27.

The Springfield Association

President, P. E. Fellows, '20; Executive Committee, D. H. Brown, '15, Mrs. Ruth B. Richards, '10.

NEEDS OF THE COLLEGE

LONG range plans for a complete new women's college plant to cost approximately three and a half million dollars were adopted by the Trustees in June, 1935. The first unit, a dormitory to house 125 women will be ready for occupancy at the opening of the college year in 1936. Three other dormitories of identical design, three recitation halls, a gymnasium, library, chapel, Dean's residence, art and music buildings are included in the long range plan. The most needed units after the dormitory is completed are a recitation hall to cost \$150,000, and a gymnasium, \$260,000.

FORMS OF BEQUEST

THE corporate title of Middlebury College is "The President and Fellows of Middlebury College."

The following forms are suggested:

I give and bequeath to "The President and Fellows of Middlebury College," a corporation of the State of Vermont, the sum of _____ dollars, to be used by the Trustees of said College for such purposes and in such manner as they shall deem appropriate.

I give and bequeath to "The President and Fellows of Middlebury College," a corporation of the State of Vermont, the sum of _____ dollars, to be invested by the Trustees of said College, and the income thereof to be applied to the uses of said College in accordance with the terms of its charter.
